**Von Patricia Briggs : Bone Crossed: Mercy Thompson Book 4** before purchasing it in order to gage whether or not it would be worth my time, and all praised Bone Crossed: Mercy Thompson Book 4:

KundenrezensionenHilfreichste Kundenrezensionen0 von 0 Kunden fanden die folgende Rezension hilfreich. The best book in this series so farVon Valkyrie KaneVampires again, yay!Vampire politics which I found surprisingly interesting and a foreign vampire as the threat of the day. Oh, and a ghost.This and the often mentioned great way

Patricia Briggs lets Mercy deal with the aftermath of what happened in *Iron Kissed* made for a near perfect read. The Mercy/Sam/Adam triangle is, indeed, resolved, and Adam is on his very best. He holds back. Not only because Mercy has still to deal with a LOT of issues (severe panic attacks among other things), but also because apparently he trusts Mercy to deal with her problems on her own. For example: He once visits Mercy when she's at one of her Karate classes where she gets into a fight a very REAL fight, because her opponent is a kind of women-hating psychopath but doesn't interrupt. He lets Mercy finish the fight and doesn't even scold her for it, which, frankly, I would've thought completely impossible for dominant, male Alpha Werewolf leaders up until now. And that's how it's like through the whole book. Adam might not always be enthusiastic about Mercy's decisions, but he lets her MAKE them, which is the important part. He doesn't dominate the hell out of Mercy and doesn't make her submit, no matter what. And apparently he doesn't plan on doing that, either. Of course, this book wasn't entirely flawless. There was a huge F-U-Mercy, I've absolutely had it moment somewhere in the beginning (around p. 59/60, I think), that had zero to do with the events in book three and everything to do with Mercy being stupid and unnecessarily-martyr-y, which resulted in the very probable possibility that my cousin would've gotten a spontaneous gift of seven Patricia Briggs novels, never to be spoken of ever again, but luckily Mercy didn't go through with her plan and I could continue reading. And then there was, the statement I've waited for since book one: And Ben adores you. (p. 226) MM-hm. Of course he does. Not to mention the (still present) fairy walking stick: It follows you because it owes you service, Mercy. (...) And because it likes you. (p. 272) Sure. Yeah, well. Still 4,5 stars because it's the best book in this series so far (imo). Oh, and... I really hope Marsilia dies a slow and horrible death, and soon. She would deserve every bit of pain, torture and misery that's coming to her. What a b\*\*\*\*. 4 von 4 Kunden fanden die folgende Rezension hilfreich. Mercy Thompson's Fourth Gripping Adventure Von Monika Simon "Bone Crossed" is the fourth installment of Patricia Briggs's Mercy Thompson series and it is definitely advisable to read these books in order as the plot continues from the earlier books and there is no - or hardly any - explanation of what has happened before. The story picks up exactly at the point where *Iron Kissed: A Mercy Thompson Novel* left off: Mercy Thompson has just survived a violent attack and rape, and has finally accepted her neighbour and alpha of the local werewolf pack, Adam Hauptman, as her mate. I had been worried somewhat that the traumatic events would be dropped too quickly but this is not the case. Mercy, despite her resilience, does suffer from the psychological trauma, but Patricia Briggs manages to include this facet of Mercy's character smoothly and naturally, neither making her an object lesson of the aftereffects of rape nor getting flippant about it. Very well done. Naturally, new problems raise their ugly heads as soon as the last ones have been dealt with. Mercy is now threatened by Marsilia, lady of the local vampires, who does not refrain from attacking Mercy's friends to get to her. To get out of the way and to allow Adam to negotiate with Marsilia, Mercy travels to Spokane to help an old friend with a ghost problem. But being who she is Mercy immediately finds new vampire problems there. Like the previous three books, this is a thoroughly enjoyable and gripping book. There was a point when I thought that there were almost too many different problems facing Mercy at the same time, but apart from this, "Bone Crossed" was great fun and can be recommended for fans of vampire/werewolf/mystery stories. 0 von 0 Kunden fanden die folgende Rezension hilfreich. sehr gut Von Dgl Typische Folge von Mercy Thompson. Die Charaktere sind einfach sehr sympathisch. Man freut sich schon jedes Mal auf das nächste Buch der Serie.

**Kurzbeschreibung** Car mechanic and sometime shapeshifter Mercy Thompson has learned, the hard way, why her race was almost exterminated. When European vampires immigrated to North America, they found Mercy's people had a hidden talent - for vampire slaying. Unfortunately for Mercy, the queen of the local vampire seethe has discovered her true identity. She's also furious when she learns Mercy has crossed her and killed one of her vampires. Mercy may be protected from direct reprisals by the werewolf pack (and her interesting relationship with its Alpha), but that just means Marsilia will come after Mercy some other way. So Mercy had better prepare to watch her back. **Pressestimmen** "In the increasingly crowded field of kick-ass supernatural heroines, Mercy stands out as one of the best." -Locus "The best new urban fantasy series I've read in years." -New York Times bestselling author Kelley Armstrong "I love these books." -New York Times bestselling author Charlaine Harris "Top-notch paranormal mystery." -Publishers Weekly **Werbetext** The fourth in the high-tension supernatural series that is taking the US by storm.
