Grandioser SchlussVon Fuchs JoanDiese Serie hat es wirklich in sich! Dieser 4. und letzte Band ist absolut mitreissend, wenn vielleicht das Ende etwas lang geraten und die Auflösung etwas zu wirr ist. Dennoch liest es sich sehr gut und man bekommt einen guten Eindruck der damaligen Sitten und Gebruche. Ein wirklich gelungener "Historienschinken".

KurzbeschreibungBritannia, AD 60: The tribes of Britannia are ready to seek bloody vengeance. Twenty thousand warriors are poised to reclaim their land from their captors. Now is their chance: the Roman governor has marched his legions west, leaving his capital and a vital port undefended. There is no going back. But to crush her enemies for all time, the Boudica must do more than lead her army in the greatest rebellion Britain has ever known. She must find healing for herself, for the land - and for Graine, her eight-year-old daughter. Colchester is burning. London has been destroyed. Amidst fire and bloody revolution, the Boudica and those around her must fight to keep what matters most - now and for all time.
