Refreshing take on the vampire lore and strong main charactersVon KtzchenWith Paranormal Romance and Urban Fantasy authors popping up just about everywhere nowadays, I braced myself for another mediocre read. Still, I love vampires, so I bought the novel and started to read.Let me get one thing straight however; this book is far from mediocre. Sharon Lipman manages to put a new, refreshing spin on vampires. Her world building is extraordinary and her characters feel real. I was on the verge of my seat several times and found it hard to put the book down. Before I knew it I was halfway through and it was 3 in the morning.I love stubborn, reckless Lena. As the only female

Guardian she is used to having to prove herself, but she has this underlying insecurity when it comes to Thorn. Thorn on the other hand is the hot, handsome King of Vampires, but sometimes I wanted to smack him. While he is a strong alpha male (which he needs to be as the king), he was not as unlikeable as some romance heroes. All in all Sharon's characters are well rounded, the world is amazing, so put this on your TBR list, even if you are growing tired of vampires, because Sharon's are unlike any other vampires. 1 von 1 Kunden fanden die folgende Rezension hilfreich. This book found a new home, love it Von Chrifée Love the story and can't wait to read the next one. Hope there is a next one? Definately a keeper.

Kurzbeschreibung Would you surrender your soul for the love of the King? Lena, a vampire and a Guardian of the Order, has been honour-bound to protect human souls all her life. Acting first and thinking second is what's saved her skin time and again in the war against the Fallen, but her disregard for orders soon catches up with her when her boss is seriously injured. Forced to take responsibility for her actions, Lena is thrust into the path of her very own kryptonite; Thorn. The raw power of his soul calls to her and his mere presence lights a fire within her that she cannot contain. With Vampire magic waning and the race in crisis, can either of them afford to ignore Nature's call? If they do, the future of the race is in jeopardy. If they don't, they will both lose the most precious part of themselves. Their souls

ber den Autor und weitere Mitwirkende A huge fan of the paranormal romance genre, Sharon Lipman started writing in her teens. It wasn't until she was in her thirties that she found a story she was desperate to share. House Blackwood was born and Bound to Blackwood is her debut novel. She was born in west London and grew up in leafy Surrey in south-east England. A lover of all things British, except the weather, she now lives in Almeria, southern Spain with her husband and an ever growing collection of dogs.
