Although it

doesn't really give you an inclination on what they are going to be like. I have always been drawn to the paranormal world and when you add in a romance with sexy men then I am pretty easy. There are parts of it that are quite unique and I was pleasantly surprised by that. Although to be truthful it does feel like it was told with a fast pace. It doesn't talk about mates which is quite different from others. However when they hook up it comes off not the way it should. It does not take away from the story itself though. Zac left home, joined the marines and became a sniper. After the service, he was approached and basically became an assassin. He killed those who could not be touched by the law and needed to be executed. When his twin had her daughter, he came home to an unexpected surprise. He had been a football star in high school and was not what one would call gay. He had always had a crush on his chemistry partner and helper. Brody however did not know that part of it. Now coming home, Brody has approached him for help. Help to find a missing student and patient. Brody has quite a secret that he has known but not shared. He is a cougar shape shifter and has many different types of gifts that come with it. When he had been in school, his main goal was to go into pre-med, but he switched it. Now part-time he worked for the FBI as a profiler and needed help in finding his patient. He had heard that Zac was a FBI agent and wondered if he would help. He had always hidden the fact that he was gay. But man, Zac comes home and he is totally out of the closet. Sparks fly every time these two get together and a killer has Brody in his sights. I had an absolute blast reading this and look forward to reading the next book. I loved it and would gladly recommend reading it. It gave me almost everything I could want in it. It had my attention from the moment I started reading it and kept it all the way to the end. I only wish that the next story is longer, because this was just a teaser for me.

Kurzbeschreibung Zac McQuade is a former marine living two lives. On the surface, he's a special agent for the FBI but undercover, he's an assassin for the Secret Intelligence Service.
