Von Joel Lake : Boy Friends (English Edition) before purchasing it in order to gage whether or not it would be worth my time, and all praised Boy Friends (English Edition):

KundenrezensionenHilfreichste Kundenrezensionen0 von 0 Kunden fanden die folgende Rezension hilfreich. O.M.G. THE ENDING.Von LenaRibkaI know now WHY I couldn't find this book anywhere. Because I was looking for Boy Friends by Todd Young. Then I found Boy Friends but under the name of Joel Lake. After I'd checked the profile of the author, I knew that Joel Lake = Todd Young.O-kay, I thought. It had to be the reason...I didn't find it.But I found

this note at the end of the novella: "This book first appeared in 2010, as Boy Friends by Todd Young. It was later republished under the pseudonym Joel Lake as it was felt it didn't fit with Todd's more mainstream work. "Who did F*G say it?! I would fire the manager. IT IS SOOOOOO TODD YOUNG!!! Is it possible to republish it under the name of Todd Young again?! IF YOU DON'T LIKE THE WRITING OF TODD YOUNG, DON'T READ IT. IF YOU DO, IT IS A MUST READ.

Kurzbeschreibung School is over and Ian has dropped out of art college. He wants to spend more time with Ricky with blond-haired Ricky who no one likes. Ian is in love with Ricky, but Ricky couldn't be interested in Ian. Or could he? An erotic novelette by Joel Lake. 18+ Adults only. Contains graphic sexual descriptions.
