Steamiest novel ever! For grown ups only! Von Lee Haskell While I was reading this book, I kept telling my boyfriend that this is the book that I've been looking for. It is written for an EXPERIENCED ADULT. Unlike this book, most of the books I've read before Susan Johnson were about virgins w/strange unrecognized feelings for a man/hero who wears a scowl on his face for the first 3/4 of the book. There is usually only one bedroom scene and the man/hero only declares his love for the woman once and that is at the end of the book. This book is far different from that tired formula. First of all, Angela is 35 and has 2 children. Being so used to the "virgin" formula, I was a little weary at first but needless to say, I have been born-again! I started this book one night at 6pm and stayed up past my 11pm bed time ended up staying up til 4am! I literally could not put this book down. I finished it the next day (no chores got done!) and then started reading the book over again! I've NEVER had the slightest urge before to re-read a romance novel! I would not change one written word of this novel. That's how good it is. It definitely encourages your libido and my boyfriend was VERY grateful to Susan Johnson for the mood it put me in. He is now her biggest fan as am I. 1 von 1 Kunden fanden die folgende Rezension hilfreich. Great Romance, Great History, Wonderful Characters! Von Ein Kunde I can't say I've read much Susan Johnson. I'm enough of a romantic that I like the sex to happen after the characters have gotten to know more than each others' names. However, with this book, I've joined Susan Johnson's fans. The hero, Kit Braddock (I do think his having a harem stretched the bounds of credulity, but it's a romance novel), is one of the most appealing male characters I've run across. He's physically splendid (of course), but also displays a powerful magnetism as well as great sensitivity. I liked that Angela, the heroine, was older than Kit and had a varied sexual history. It doesn't seem fair that the guys in romance novels are the only ones sowing wild oats. Both these people are so charismatic that reading about them consumed my weekend. The footnotes were fascinating. I like that Johnson doesn't subscribe to the stereotype that romance readers are airheads. I look forward to Johnson's next book. However, I don't look forward to the use of the f-word during the love scenes. But you don't read Susan Johnson for softly romantic men and women. 2 von 2 Kunden fanden die folgende Rezension hilfreich. SCORCHINGSMOKIN' READ BE BURNED !!!!!!!!!!!!!
