military men who forged a bond whilst in combat in Afghanistan but who are all working out their new life paths now that they have joined civilian life. This story focuses on Dallas O'Halloran, former Air Force combat controller, who appeared briefly in *Shattered* and *Crossfire* (I haven't read the first book in the series, *Freefall*) but about whom I knew very little as he's been a fairly minor character up till now. I had begun to wonder if this author had a rather similar plot theme in her books as the previous two both had hero and heroine having previously had a relationship when we meet them in the story. In this book, although Dallas already knew Julianne Decatur it was as an opponent in a court martial (she was prosecuting his friends over the helicopter crash in Afghanistan). This story begins a year or so later when Dallas finds himself tasked by THOR (a high-up government agency) to investigate the suicide of a female pilot on an aircraft carrier. Dallas finds himself teamed up with Julianne, a woman he finds himself attracted to. But why are they investigating a suicide when NCIS could do it? And might they uncover some rather more significant events that are taking place on the carrier? I really enjoyed the aircraft carrier setting of this book. The detail was excellent and it's clear the author's done her homework. I also liked the growing relationship between Dallas and Julianne which felt more solid than some of the other books' main relationships. What was less successful about this book was its pacing (it seemed quite slow at times) and the actual mystery; neither Dallas or Julianne seemed particularly good at investigating. They had a ship of 6000 people and they kept their investigations to just a handful of people on that ship. How fortuitous they chose the right handful, even if some were a bit of a surprise! I like this author's books, particularly the military detail, although reading three in quick succession shows a fair bit of repetition ('No battle plan survives first contact with the enemy', 'the only easy day was yesterday' etc pop up over and over again), and I feel perhaps that the military setting is more successful than the romance part of the story. But overall it's a good enough read! Originally published for *Curled Up With A Good Book* Helen Hancox 2011

Kurzbeschreibung Air Force Combat Controller Dallas O'Halloran is as tough as he is loyal. So he's not pleased when he's recruited into a new anti-terror unit and teamed up with Academy graduate Julianne Decatur-the icy blond JAG officer who nearly court-martialed his friends. Assigned to investigate a Navy flyer's apparent suicide, they discover the trail of a ruthless killer-and an attraction between them that can't be denied. And when their prey turns the tables on them, Julianne will have to depend on the one man daring and reckless enough to keep them both alive...
