**Von Shannon Mayer : Breakwater (The Elemental Series Book 2) (English Edition)** before purchasing it in order to gage whether or not it would be worth my time, and all praised Breakwater (The Elemental Series Book 2) (English Edition):

KundenrezensionenHilfreichste Kundenrezensionen0 von 0 Kunden fanden die folgende Rezension hilfreich.

Zumindest besser als Band 1 Von Brainwashed Turanga Leela Dies ist der 2. Band der Reihe um Larkspur in der Welt der Elementals. Der erste Teil heißt Recurve, und muss nicht unbedingt vorher gelesen worden sein. Mit Wucht und Karacho kmpft sich Larkspur einmal queer durch "the Deep": Der Wasserwelt im Elementar-Universum. Mit Belladonna an ihrer Seite versucht sie Requiem, der neue Knig der Sein Volk unterernhrt hlt und Menschen versklavt, aufzuhalten. Warum Lark Spirit nicht einfach von Anfang an Spirit einsetzt und damit dem Treiben ein Ende bereitet ist mir unverstndlich, da sie so oder so in Situationen gedregt wird in denen sie es nutzt. So wirklich gefallen hat mir dieser Teil auch nicht. Er war oder ist zwar besser als Teil 1, aber es sind immer noch dieselben Probleme vorhanden. Zu viele Wiederholungen, die Regeln der Welt sind nicht richtig eingespielt. In diesem Teil wurden zu allererst die Familiar vorgestellt, die so ziemlich jeder Elemental hat. Merkwrdig nur, das davon im ersten Teil die die Rede war... Weiter stren mich Larks wechselhafte und ziemlich willkrliche Moralvorstellungen. Der 3. Teil ist in der Hinsicht tatschlich DEUTLICH besser. Aber Band eins und zwei sind fr Leser, die gerne sinnvolle Geschichten lesen reine Katastrophen. Ich wei auch nicht warum ich überhaupt weiterlese, aber Autoren, die mir gefallen haben schon lnger nichts mehr erscheinen lassen und dieser Band hatte immerhin eine 5-Sterne Bewertung. Das heit fr mich, das das Buch wirklich aussergewöhnlich gut ist, und zu den Top 10% gehrt. Fr mich ist hier eher das Gegenteil der Fall. 0 von 0 Kunden fanden die folgende Rezension hilfreich. Kill me then, for I will never bow to you - Lark in another gripping adventure and a heroine in the making Von Mina Note: maybe this book could be read as a standalone, but I really don't recommend it. Not only is Breakwater a second in Lark's UF/fantasy series, but it also has ties to the Rylee Adamson series. In other words: I'd read the books of the Elemental series in the right order and would add reading Rylee Adamson for good measure. Makes the most of the books. Review One would have thought that Lark, having saved not only her father, the Earth Elemental's king, but also their whole people from her very evil stepmother, she'd finally get the princess-treatment she deserves. But: not happening. Her father allegedly treats her indifferently to save her from envy, but at the end of this installment, you really don't know, what is real and what is show. Or coercion. But firstly, there are repercussions from Lark's adventure in the Fire Elemental's Pit to fear: the Fire's queen demands Lark be tried before her for the killing of three of Fire's Enders. And just as Lark comes out of her tests to be finally admitted as an Ender at all. So her father sends her away on a bodyguard's job to accompany her royal sister Belladonna to the Deep, the realm of the Undines, the Water Elementals. And this is where an intense and colorful adventure starts, full of machinations, danger and battles. The two are thrown into a veritable snake pit, since the realm is in uproar after the late king's demise and being Terraling royalty isn't as safe a shield as they hoped. From their first meeting with the Undine it's obvious that it would be close to a miracle if both of them made it out alive and unscathed. And let me tell you: the unscathed thing isn't going to happen. I won't spoil anything, but you'll feel pity you probably didn't expect to. Lark is wary, because she is sure that Belladonna is her evil mother's daughter in more than blood and surprisingly, the relationship between Lark and her half-sister is one of the most interesting things in this story and not because the book weren't offering a great lot of interesting aspects, but because it's so well written. But yes, character development and Lark's getting better at tapping into her power aside, the plot with its action and investigation, is pure entertainment, I read this awesomely written book in just a few hours and couldn't lay it down. And as a side note, I was thrilled to read about Lark's first meeting with Peta, whom you know if you've read the Rylee Adamson novels. I had no idea how funny Peta could be! So, if there is anything I did not like about the book, it's that I finished it already and now have to wait for the next chapter of Lark's quest and let me warn you: the end is in the cliffhangerish category... I kind of knew it would happen eventually, but yes, the end indicates that there won't be any rest for Lark any time soon. 0 von 0 Kunden fanden die folgende Rezension hilfreich. Alle Bcher dieser Serie sind klasse! Von Sandra Shao Grade kam ASH der letzte (?) oder zumindest neuste Band der Serie raus, kann es kaum erwarten, ihn zu lesen. Ich liebe diese Serie von Shannon Mayer und es wir auch am Ende, wie es bei vielen anderen Serien leider der Fall ist, nicht langweilig!

Kurzbeschreibung "BREAKWATER was a twisty, come-out-swinging book that really propelled this series and its characters forward in a big way. The first installment revolved around the Earth Elementals which by their very definition made them less alien than the Undine so, in volume 2, Shannon Mayer was able to fully let her creative cat (Peta) out of the bag by initiating readers to the secrets of the Deep." - Rabid Reads From HiJinks Ink Publishing and Shannon Mayer comes BREAKWATER (Book 2) in The USA Today Bestselling ELEMENTAL SERIES. With over 1 million books sold, Shannon Mayer proves once again she can dominate her genre right out of the gate. My name is Larkspur, and I am an Elemental. My people use the power of the earth to sustain life and defy our enemies. I should be at my father's side as a royal princess. But as a half-breed, bastard child, that isn't going to happen. As an Ender, one of my father's Elite guards, it's my job to do as I'm told. When my older sister is sent as an ambassador to the realm of the water elementals--the Deep--I have no choice but to accompany her as her bodyguard. With the death of the water elemental's King, a deadly battle for the throne begins; a battle we are forced to choose sides in. There are only a few things I know for sure. The ocean may be beautiful, but lurking in its depths are monsters to fear, the water I tread

is teeming with danger and I am on my own. With no one to help, and no one to trust, I have to find a way to keep my sister safe, and stop a civil war. But the secrets within the Deep are far darker than any of us realized. Welcome . . . welcome to the Deep.
