KundenrezensionenHilfreichste Kundenrezensionen0 von 0 Kunden fanden die folgende Rezension hilfreich. WOWVon Anja4.5 Brutally Fantastic StarsEvery once in a while, I stumble across a book ad while on cyber space and decide to check it out on a whim. Sometimes its disappointing and sometimes I discover a book that ends up taking me by surprise and leaving me speechless. Brutal was one of latter ones. Im pretty sure it will be with me for a long while.Brutal was so very different than any other book Ive read in a long time. From page one I could not put it down and I was ignoring everything around me; friends, work, school. I have to say though; I love when awesome books do

that to me. Yet I have to say, this book might not be for everyone; it was dark, raw and was full of violence and aggression. Though, its also full of love, friendship and selflessness. Who am I, youre asking yourself. My name is Venessa Cross, and I fight for those who cant ~ Venessa Cross Venessa Cross is one badass chick. Ive never met another heroine quite like her and I doubt I will anytime soon. She quite literally kicks ass! Growing up, Venessa is your average girl, with a stable family and big dreams for the future. All goes according to plan, until one horrific event changes her life drastically at the age of seventeen. After that, the girl she used to be is forever changed, and she takes the law into her own hands; not only seeking revenge but also keeping the streets of Detroit clean. This however, puts her on the Police Departments radar, as well as Rogan Blacks. The instant connection between them is palpable from the first moment they meet. Hes built like a Buick and everyone know they make one hell of a car. ~ Venessa Cross Rogan Black is a detective at the Detroit Police Department and lives for his job. He has had a rough childhood and doesnt have much of a live for outside of work and his partner is the only friend he seems to have. Hes one strong, but also hard, alpha male. When he meets Venessa, however, he changes. He starts to care about something other than just his job. He is very protective of her in his badass alpha way, sometimes over the top so. I loved the connection that Rogan and Venessa shared. You could see the love they had for each other. Yet, they didnt expect either one of them to change, but in the end accepted the person the other one is; flaws and all. Jesus, were beauty and the god damned beast, and Im one lucky beast. ~ Rogan Black I love this story from start to finish and every heartbreaking turn it took. The only thing that has bothered me every now and then during the story were the typos and grammar mistakes. Granted, this is a pet peeve of mine and probably bothers me more than other people. However, this did NOT, in any way, take anything away from the story itself and my immense enjoyment of it. I can recommend this to everyone who likes a badass heroin and a gritty, unconventional story.

Kurzbeschreibung My name is Venessa Cross. Im a Detroit DJ with issues. I know it, my friends know it, and even the enemy knows it. The problem is, now the Detroit Police Department knows it, too. I was wrong to think my nighttime activities would go unnoticed. Eventually I wound up on his radar. He lives for the law, I exist outside of it. I expected the rules to change, but I didnt expect that one simple handshake would also change...everything else. When hes assigned to protect me, he gets a back stage pass to my world. Now I make him question the very oath he stands for, and I hate myself for it. Im convinced Ill ruin him. Yet, he wants to save me. If you thought the streets of Detroit were brutal, you havent seen me in action. Follow me and watch me do what the police cant: Deliver Punishment. My name is Venessa Cross. I am justice. A full time Realtor, life long Michigander and all around lover of all things guns and Detroit. I believe in freedom of foul language, gratuitous nudity, tattoos and mosh pits. I've recently taken up drinking wine and feel like I'm really making progress with it. I think my chances at finding a place within the romance genre is 50/50 but I suck at numbers so what do I know? My stories are written with heavy dialogue and are Detroit based. If you don't like heavy dialogue or Detroit don't read my stories. My characters are typically dark and fairly fucked up so if you want sappy characters without issues, don't read my stories. I love violence, guns, blood, naughty words, awkward sex, rap, metal and untraditional people. Every fight scene was tried and tested by me, I have the bruises to prove it too. I write romance but my characters are not romantic, each is a work in progress. My stories are about strong women and the alphas who try to tame them but never do. At the end of the day you may not like my stories, you may also think I suck as an author and that's okay, but I have to tell you I had the best fucking time writing them and for me that's what it's all about.
