Von Liza Cody : Bucket Nut before purchasing it in order to gage whether or not it would be worth my time, and all praised Bucket Nut:

KundenrezensionenHilfreichste Kundenrezensionen2 von 2 Kunden fanden die folgende Rezension hilfreich. revolutionaryVon Jessica FalzoiBig, ugly and awfully streetwise, Eva Wylie turns over all characteristics commonly attributed to the female sex. From the very beginning the reader submits to her way of seeing and laughs about the flatness of all other characters around her. My favorite example: When Goldie is making up her eyes Eva's comment

brought tears to my eyes so hard I had to laugh. Two thumbs up for the first STRONG literary heroine!!! Men around her become awfully ridiculous and short-sighted and women robots of female socialisation. Anna Lee was already an astounding character but Eva is really on top!The (female) world has been desperately waiting for Eva Wylie...Thank you so much, Liza Cody!!!1 von 1 Kunden fanden die folgende Rezension hilfreich. For a mystery, maybe even an 8 or 9Von Ein KundeAlthough this book didn't feel at all like a mystery, I was pleasantly surprised to see a mystery writer create a unique character with so much depth. I often times felt very sorry for Eva's lot in life, but then I would recall that Eva certainly didn't feel sorry for herself, and she would probably tell me off for being so sappy. I thoroughly enjoyed Eva's perspective of life and her way with words. It's been a while since I met such a colorful character. As I stated, I have a problem with the "mystery" categorization. I was reminded more of "The Book of Ruth" and "Daisy Fay and the Miracle Man" than any mystery I've ever read. I was more caught up in Eva's affording to fix her teeth and winning her wrestling match than her fairly passive quest for her sister and her attempt to get herself out of her latest fix. I look forward to reading the next installment. I applaud Eva Cody's rich character.1 von 1 Kunden fanden die folgende Rezension hilfreich. Just wonderful!Von Ein KundeThis is a fabulous, wonderful book. A completely different protagonist and a first-person story which is hilarious and tragic in turns - the more moving because Eva Wylie doesn't ask for sympathy and isn't even aware she might inspire it. It's not often I bother to read crime novels twice, but there's so much in this I know I'll be reading it a third, and a fourth ...

KurzbeschreibungThis novel shows how Eva cuts a swathe through London low-life. Big, ugly and irresistible, she's a female wrestler with criminal tendencies and large pectorals. When she's not working the sleazy wrestling circuit, she's a security guard living in a breaker's yard.KurzbeschreibungThis novel shows how Eva cuts a swathe through London low-life. Big, ugly and irresistible, she's a female wrestler with criminal tendencies and large pectorals. When she's not working the sleazy wrestling circuit, she's a security guard living in a breaker's yard.Synopsis Liza Cody introduces Eva Wylie, an unorthodox new heroine who cuts a swathe through London low-life, unencumbered by bank account, telephone, driving licence or scruples.
