Erstklassiges Lesevergnügen Von KaHo28 Erstklassiges Lesevergnügen. Der Sex ist hei. Die Story spielt in einer

interessanten Welt und ich hoffe, dass es noch weitere Folgen gibt.

Kurzbeschreibung Set in a fantasy world where magic is commonplace and elves and fairies live among humans, Noah is a fire elemental who needs to get laid. When a family tragedy strikes Noah's best friend, he's forced to take to Craigslist in search of a new roommate. In walks Walker. Noah only means to share the rent, but when your roommate is this distractingly hot, can anyone blame you for sharing a bed too? The heat between them is scorching until vanilla sex simply isn't enough anymore. Noah craves the comfort and catharsis of submitting his will to another during sex. Walker is inexperienced, but turns out to be so good at it that Noah finds himself forgetting to teach. Through their mistakes and missteps, their story of sincere trust unfolds as the pair learn what it means to let themselves be loved.
