KundenrezensionenHilfreichste Kundenrezensionen0 von 0 Kunden fanden die folgende Rezension hilfreich. Solid and entertaining sci-fi operaVon Olga AndreichykavaHad a blast reading this novel as it explores the depth of space in a galaxy of aliens, robots and spaceships.It's a clear recommendation to anyone eager to experience a living universe

of colorful characters and intense dramas. Good pickup any day.

Kurzbeschreibung- - Conflict is coming - - Jennifer Bronwen, deep-space freighter skipper, sometime smuggler, and occasional blaster-for-hire is flat broke and in desperate need of a job. With her bills mounting and her ship one unlucky micrometeorite collision away from the scrapheap, when shes offered a lucrative contract for a risky heist, well, its an opportunity she cant afford to pass up. Keera Naraymis, a secret agent on deep-cover assignment in alien space, has just one more job to finish before her mission is complete. Getting it right means making the galaxy a safer place, and taking a trip to the Terran homeworld should be simple enough. But in the espionage game, your enemies are never quite who they appear. When their lives collide with catastrophic consequences, Jen and Keera form an unlikely alliance to find out why anyone would want to kill either one of them. What they discover runs far deeper than they could ever have anticipated, and throws them into a race against time to stop a conspiracy that threatens to unravel a thousand years of peace in the galaxy of the Burning Suns.
