Von Mercedes Lackey : Burning Water (A Diana Tregarde Investigation Book 1) (English Edition) before purchasing it in order to gage whether or not it would be worth my time, and all praised Burning Water (A Diana Tregarde Investigation Book 1) (English Edition):

Von Ein KundeBurning Water was my introduction to Mercedes Lackey - I regret that no more books will be written in this series(according to some sources). I found the heroine and her cohorts quite entertaining and engrossing - I definitely appreciate characters that possess a sense of humor and humanity. If you enjoy reading fantasy that doesn't take itself TOO seriously (spare me), and don't particularly care for the knights-in-armor scenario, try this mystery and the other two in the series.1 von 1 Kunden fanden die folgende Rezension hilfreich. Good but Predictable (and Somewhat Scary!) Von Ein KundeOveractive imagination, beware! While "Burning Water" _was_ predictable, it's easy to forget what's going to happen if you can lose yourself in the book. Be careful, though ... you start seeing things in the shadows after a while. It's not as terrifying as a horror novel, I suppose, but there's something about the book that is even more chilling than carefully calculated horror, somehow On the whole, the Tregarde books are good -- I especially like Lackey's take on witchcraft (it seems to be a good deal more open-minded than most authors) -- but I'd really like to see more of them. You know what they say about Lackey and trilogies, though, and she _has_ done three Tregarde1 von 1 Kunden fanden die folgende Rezension hilfreich. an excellent book, good plot too bad there won't be more Von Ein KundeThis is probably the best book in this series and one of the better Lackey books, set in Dallas with a strong plot involving Aztec mythology and occult detectives this book keeps the reader interested until the end. I was disappointed to learn that there would not be any more books in this series due to poor sales. While I can understand Ms. Lackey's point of view I felt that this was a truly good series that deserved more attention than it has received.

KurzbeschreibungA sexy witch who writes romances and a police detective who sees more than mortal man team up to battle an ancient Aztec god! Dallas Police Detective Mark Valdez isn't just any cop, he's a psychic who knows that the cattle mutilations and torture murders he's been investigating are somehow tied together. He also knows that his meager psychic abilities aren't enough to identify the killers, much less stop them. Luckily, Mark has an ace up his sleeve: an attractive young romance novelist who happens to be a practicing witch. And not just any witch, either- Diana Tregarde is a Guardian, charged with protecting the Earth and all its creatures. Using modern science and ancient magics, Diana and Mark discover that they are tailing no ordinary serial killer but the awakened avatar of an Aztec god. Tezcatlipoca and his four beautiful handmaidens are preparing for a great sacrifice that will transform North America into a new Aztec realm. Diana isn't sure her powers are strong enough to take on those of a risen Aztec god, but she has no choice. As a Guardian, she is sworn to protect mankind, even at the cost of her own life. Luckily, she does not stand alone. Mark Valdez is more than just a cop. And Tezcatlipoca is not the only Aztec god walking in the world.
