my eyes and kept me wanting for more story all the way through. I love paranormal stories especially with shifters and this is a unique one.

KurzbeschreibungTwo lost souls, the Moon and a death wish...Bryn, the leader of his wolf pack, is so lost in his own pain he cannot see beyond it. Freya is dying and has come home to Scotland to say goodbye. A chance encounter on the moors of Scotland brings these two lost souls together. Freyas fate lies in Bryns loving hands, but he knows that to save her he must kill her. Note To My Fans - This is the extended, erotic version with new material and a preview of the sequel!
