Promising young authorVon Helpful AdviceYoung author Destiny Hawkins with her debut Caged: Part 1 managed to

create appealing title for younger readers about person trying to escape the past and second life chances, in general. In the very beginning author chose to open the novel in a shocking way reader meets nine year old main character Rose who is experiencing horrible things in her life. The action will move nine years into the future when Rose is only trying to forget the past and be a normal young girl just like all the other around her. New family, new school and new friends, but no matter how hard she tries, it seems past is catching her. And though it may seem she will be able to once again prove to herself she can be strong enough and go through all the problems, one text message will change everything. Though I'm not a fan of such titles, I was asked by author herself to read her debut novel I can say that *Caged* is well-made self-published work which could certainly be improved in few areas, but still all together given its size and good story can be recommended to those who like to read about troubled teens. Therefore, if you consider yourself as such type of reader, freely raise my rating for one star and give a chance to promising young author Destiny Hawkins.

Kurzbeschreibung Nine years after being stolen from her home and forced into clandestine fights, seventeen year old Rose was ready to start life afresh at Wintry High School, but she found that incredibly hard to do while suffering from Post-Traumatic Stress Disorder and running into people that were eager to dig up her past. Still, she kept pushing forward to make something out of herself until one day her worst nightmare trapped her in an alley, and suddenly, making a new start became irrelevant.
