Very good reading!Von Detra FitchAurora Jenkins "Rory" had been born and raised on an island off the shores of South Carolina. She volunteered to help protect the area from fancy lawyers buying it all up and turning it into high-rises, motels, big businesses, parking lots, and tearing up the entire area. She was fighting for her family (in more ways than

one), neighbors, and environment. She would use all her big business know-how, if necessary, to do it. But in order to succeed, she must win Clay McCloud over to her side. The State Parks Department (Mr. Ben Little) only needed Clay to locate the owners for them. If the lawyers could get just one of them to sell their small share of the property, then they could have the WHOLE PARCEL on the auction block within a few short weeks! Getting Clay to just LISTEN would not be easy though. The software genius has been playing hermit, hoping not to have to deal with any of it. Clay McCloud was enjoying being alone and secluded! He had enough of owning dot coms online or designing business software and computer games only for someone to steal them from him. He no longer wanted the big dollars, fancy cars, and gorgeous women that he'd had for so long. Or so he thought! Rory looked a lot like the Viking princess he had designed on his video game "Mysterious". As attracted as he was, Clay had his own set of rules about women like Aurora. But rules were made to be broken.***** Awesome story that kept my nose stuck in the book tighter than cement glue! I even learned some interesting things about rural coast lines and the animals that live there. This story is a sure winner! *****Reviewed by Detra Fitch of Huntress Reviews.0 von 0 Kunden fanden die folgende Rezension hilfreich. Witty romance.Von Detra FitchAlys Seagraves is twenty-seven, but looks as though she is sixteen. She lost her husband, Fred, to cancer one year ago. Her elderly, eccentric friend, Mame Emerson, had her take some classes at "Mame's School of Alternative Life Lessons", such as Yoga. Now the pair decide to embark upon an epic road trip along historic Route 66. They are going to relive Mame's honeymoon trip.Mame suffers a mild heart attack that throws a wrench into the plans. Hating hospitals, and knowing her nephew Elliott Roth "Doc Nice" (a famous radio doctor) would keep her from going, Mame tries to get out of the hospital before he shows up. She fails. But while Alys and her nephew are not looking, Mame sneaks out of the hospital, steals Elliott's black Range Rover, and off she goes! Of course, Mame gets someone else to drive since Alys is unavailable. Wiley Mame decides to do a bit of matchmaking while she avoids Elliott. At the same time she is helping one of her students kidnap a niece.Dr. Elliot Roth wants Mame off the road and resting in a hospital or nursing home. Since Alys has Mame's pink Cadillac "Beulah" and the travel route, he has to accept the fact that he must travel with her if he is to have any chance of catching up with Mame. Alys is finally feeling alive again and is determined to enjoy the journey. Elliot is patient despite his pragmatic tendencies and pops Tums often. Spending hours together in old Beulah makes sparks fly, just as Mame expected to happen.***** A fun romantic comedy that will make you feel as though you are traveling the historic Route 66 with Alys and Elliott. The back of the book has Elliott's last name listed as Ross; however, the inside of the book showed the last name Roth. So do not let the cover and my synopsis confuse you. It is just a tiny oversight and in no way detracts from the story. Author Patricia Rice proves that she has a talent for creating realistic characters that readers cannot help but remember fondly for a long time after the story ends. *****Reviewed by Detra Fitch of Huntress Reviews.
