Well written and with likeable characters. The first encounter between hero and heroine in the elevator unfolded in just the right pace, not too fast and not too slow, which made the sudden attraction between hero and heroine much more believable than if the author had rushed into it. The story was also a lot more emotional than what I came to expect from a Blaze. There were some deeply moving scenes I really loved. And the end was so sweet and beautiful it actually brought me close to tears - definitely a first for a Blaze!The reason why I only gave 4 stars is that the author often explained for several pages what hero or heroine felt and thought - without anything actually happening, which slowed the story down some. A

faster pace would have made it more fluid. But other than that it was a very good read: hot, sweet, moving, and with a very satisfying end!

Kurzbeschreibung He's everything she despises a babe magnet with more notches on his belt than a millipede has legs. And he thinks his coworker is wound so tightly she irons her underwear at night. Two people couldn't be further apart. But when Jack Brook and Claire Marsden get stuck in a sweltering elevator one afternoon, it's a different story. By the time they're rescued, Jack and Claire have swapped confidences and oh, they've had the most spectacular sex of their lives! Back in the office they're still butting heads over projects, but now there's a heightened awareness added to the mix. With this kind of tension in the air, how can they resist another round of sexy indulgence?
