said in my previous reviews, incredible place, makes me want to book a room right now. Love Willowdean, love Misty and all the other characters being at home there. Cheryl's stories are so nice to read, no messy idioticities, no bulls*** entanglements. Just believable problems and people with brains and hearts solving them and getting their well earned happy ending. I just wish she would hurry up writing more of them.

When she's not working, you will find her ignoring housework, cursing yard work, and spending way too much time with a television remote in her hand.
