Von DM Wolfenden : Carly (English Edition) before purchasing it in order to gage whether or not it would be worth my time, and all praised Carly (English Edition):

A cracking little readVon Karl WigginsDM Wolfenden has a talent for hooking the reader, and although its only a short story a novelette, I believe the term is it just breathes tension.Two women sit down in a police cell to talk across a steel table, and the weight of the atmosphere just oozes out of the pages of your kindle. Vanessa St. John is professional and

diligent, Carly is aloof and controlling. In fact she doesn't give a damn about anything except the dog, but as the story unfolds. Do you know what? Just read this book, you'll love it. If I say anymore I'll end up throwing spoilers in, which I have no intention of doing. This is a cracking little read! 0 von 0 Kunden fanden die folgende Rezension hilfreich. Thrilling Von LoveToReadWow! Being a fan of author DM Wolfenden, I couldn't wait to get this book and once again, she wove a brilliant plot. It's a short read but intense and thrilling. It's full of twists and turns and you won't be able to put it down! I'm not one to slip out any spoilers, so will just end in saying don't miss this one of you like psychological thrillers! 5 stars all the way and wish I could give more. 0 von 0 Kunden fanden die folgende Rezension hilfreich. Super! Von LaurieMA short read, but is engrossing, suspenseful, and ingenious. Written in interview style, but continues to engage all the way through to the surprise ending.
