Realistic charactersVon Detra FitchCarrie Pilby is odd by her own admission, or perhaps the rest of the world is what is odd. At nineteen, she is a genius, dateless, unemployed, and while not agoraphobic, prefers not to leave her home. At her father's insistence, she sees a psychiatrist weekly, but is getting nowhere. The doctor gives her an assignment. She is to name things she loves, do things on the list, join something, celebrate New Year's, and go on a date.Carrie does her best to follow the assignment. She does join a church, though she suspects it might be a cult, does some things on the

list, especially the sleeping part, and places a personal ad to get a date. It is not her fault that all the repliers are unsuitable. Her odyssey to get a date will lead her through several unfortunate meetings, a lesbian encounter, and a promising relationship with a man cheating on his fiancée. Carrie learns a lot about herself and about life, and gives the reader her witty commentary in the process.***** Carrie is someone with whom everyone can identify, at least in part. She is so realistic, it can be scary at times. However, she is someone that you will want for your best friend, once you can get her to leave home to meet you.0 von 0 Kunden fanden die folgende Rezension hilfreich. Great bookVon Laura S.I only bought this book because there will be a movie about it and it sounded like a book I might like. I actually did really enjoyed this book and I can't wait for the movie to come out soon.

KurzbeschreibungTeen Genius (and Hermit) Carrre Pilbys To-Do List:1. List 10 things you love (and DO THEM!) 2. Join a club (and TALK TO PEOPLE!) 3. Go on a date (with someone you actually LIKE!) 4. Tell someone you care (your therapist DOESNT COUNT!) 5. Celebrate New Years (with OTHER PEOPLE!)Seriously? Carrie would rather stay in bed than deal with the immoral, sex-obsessed hypocrites who seem to overrun her hometown, New York City. Shes sick of trying to be like everybody else. She isnt! But when her own therapist gives her a five-point plan to change her social-outcast status, Carrie takes a hard look at herselfand agrees to try.Suddenly the world doesnt seem so bad. But is prodigy Carrie really going to dumb things down just to fit in? How far should a teen genius go to fit in?KurzbeschreibungTeen Genius (and Hermit) Carrre Pilbys To-Do List:1.
