Von Adrienne Bell : Carter: The Sinner Saints #1 (English Edition) before purchasing it in order to gage whether or not it would be worth my time, and all praised Carter: The Sinner Saints #1 (English Edition):

KundenrezensionenHilfreichste Kundenrezensionen1 von 1 Kunden fanden die folgende Rezension hilfreich. Carter/AllyVon MinelliIch nenne das einen soliden romantic suspense Roman. Hat mir gut gefallen, es gab keine Lngen und fr die geringe Seitenanzahl ist richtig viel passiert.Ich ziehe einen Stern ab, weil das Ende mir zu kurz war

und ich einen guten Showdown allem anderen vorziehe. Trotzdem auf jeden Fall Leseempfehlung.

Kurzbeschreibung After years of heading an elite Special Forces unit, nothing ever gets past Carter Macmillan until the night slick-talking reporter, Ally Weaver, gives him the slip. Ally Weaver is used to following the story, but she's never had a lead blow up on her before literally. Now one of her confidential sources has been murdered, and she's determined to find out why. But Ally can't risk drawing anyone else into this violent mess no matter how skilled--or gorgeous--he may be. But a girl can't always get what she wants. And when the pair find themselves thrust into the crosshairs of a corrupt politician who would do anything to stay in power, they must work together to expose a deadly conspiracy before they become the next victims. But while both Ally and Carter are willing to put their lives on the line to discover the truth, neither is prepared for the danger the other poses to their heart. ***Part romantic comedy, part thriller, and filled with plenty of intrigue, CARTER is the first novel in the Sinner Saints contemporary romance series.***
