KundenrezensionenHilfreichste Kundenrezensionen1 von 1 Kunden fanden die folgende Rezension hilfreich. This ticks all the boxes.Von FieldceneThis novels ticks all the boxes for me. Interesting characters, great adventure and best of all well written. Edith Parzefall has conquered them all with her amazing writing.It was a pleasure to read this novel with it's range of characters from different backgrounds and cultures. Serendipity plays a part in bringing them together, adding a touch of magic to the many mishaps and misadventures that occur on an overseas trip planned to bring a honeymoon couple together. Even the best of intentions go wrong for the main characters, keeping my

attention riveted until the last page.

Kurzbeschreibung Could the tour guide sprung from her nightmares really be the solution to Karos problems? After she insulted her biggest customer, Karos company is in trouble. With no money to squander, she still loves to send her widowed brother-in-law and his new bride on a fairy tale honeymoon. When a storm blows Martin Sander back into Karos life, his unexpected inheritance from unknown sources allows them to lure the newlyweds to his finca on Tenerife at low cost. At the same time, a bunch of Senegalese refugees head for the Canary Islands. Karos attempt at playing fairy godmother works like a charm until another storm moves in, blowing the refugees off course and endangering the lovers. Can a trip organized by the infamous tour guide ever go right? Filled with chaos, drama, tension and banter, this sequel to *Caution: Slippery* stands alone but builds on the lively characters of the first book in the Adventure Trek series.

ber den Autor und weitere Mitwirkende Edith Parzefall studied literature and linguistics in Germany and the United States. She strives to combine her two passions: writing and traveling. She supports a street kids project in Recife, Brazil. When she visited Grupo Ruas e Pracas, she took part in a music and crafts workshop with the children. During her stay in Rio de Janeiro, *Strays of Rio*, a thriller set in this city of contrasts, took shape. In 2008 she traveled through Chile, supposedly the safest country in South America. Stopped at a red light in their rented SUV, she and her partner were sandwiched between two trucks on the Pan-American highway. An unplanned excursion to the local hospital and the Carabineros de Chile allowed her insights she never meant to gain but wouldn't want to miss. A new story idea sparked: *Crumple Zone*. Together with British author Francene Stanley, she co-wrote the Higher Ground series of four post-apocalyptic fantasy adventures.
