Aircraft nuts will love this one!Von Forbeswarren@btinternet.comAnother first-rate military aviation thriller from Dale Brown which is next to impossible to put down. The scenario of Boris Yeltsin being ousted from power and being replaced by a hardline communist best on war is a highly feasible one considering how unstable Russia can be in real life. When

Russia tries to invade the Ukraine, Moldova and Romania using tactical nuclear weapons and the neutron bomb, the US President (a southern hillbilly draft-dodger who has a passion for MMs, Coke and Fritos . . . guess who . . .) and his dominatrix(!!!!) First Lady (who is more evil than the Russian communist leader!) dallies over a military response and sends in a reserve F-111 fighter-bomber squadron to deal with the situation. The characters are well crafted, especially Daren Mace and Rebecca Furness and the chemistry both in the air and in bed between them! General Freeman is a worthy gung-ho Chairman of the Joint Chiefs and a flyer by the name of Fogelman is full of macho insecurity when it comes to real combat . . . The flying and war scenes are highly realistic and compelling; the first third of the book centres around Mace's secret mission in Desert Storm of nuking Saddam Hussein and his harassment by the military when he is forced to abort. The second part deals with the F-111 crew training and the build-up to the war in Turkey and the Ukraine, and the final half has intense action that's so brilliant you feel you're there. Dale Brown's got a good one but didn't completed his homework Von Arikan Sirakaya (sirakaya@superonline.com) This is my fourth book by Dale Brown. Although i am a fan, i can not say this is the best novel of him. Again this time the aviation stuff and scenario was very good but i think Mr. Brown did not do his homework well. He should have made a better research about the countries and armies he is telling in the book. He reflects that women are treated as second class people in Turkey and even a Turkish Squadron Commander insults an allied female officer because he thinks women can not fight. Things seem quite acceptable when you look from 8000 miles away. But when you get closer and do a good research you see the fact that women are serving in the Turkish Army, Air Force and Navy for 75 years. With the most sophisticated weapons, well trained personnel and modern commanders Turkish Army is not the one described in this book. Other than this matter i can say i missed ol' McLanahan whom i got used to see in 3 out of 5 Dale Brown book. Anyway Mr. Brown is a good storyteller so you will definitely enjoy this novel. 0 von 0 Kunden fanden die folgende Rezension hilfreich. The last Dale Brown book I ever read Von Ein Kunde Petty politics undermines what otherwise might have been a passable action novel. Brown's grudge against the Clintons gets the better of him and skews the novel away from its otherwise interesting plotline, toward the author's apparently bottomless hatred of the First Family. One gets the feeling that only the intervention of his publisher prevented Brown from using even cruder language, particularly in his depiction of the First Lady. I respect the fact that Brown may have strong feelings against the Clintons, but other authors I have read do a much better job of keeping their novels from having such a vindictive tone -- next to Brown, Tom Clancy seems downright even-handed. Unless he only wants to appeal to the most bitter of Clinton-haters, Brown should consider toning down the rhetoric and focusing on fiction in the future.

Kurzbeschreibung The best military adventure writer in the country today. Clive Cussler A superb storyteller. W.E.B. Griffin **Hardliners** gain control of Russia and motion to retake Ukraine. After detonating an atomic device in Ukraine, the United States flies in a fleet of F-111 combat planes for support including some of the first women to fly in combat, who have something to prove. **About the Author:** Dale Brown is a former U.S. Air Force Captain, and the author of 22 novels, 14 of which went on to become New York Times Best Sellers. He is also the co-author of the DREAMLAND series of techno-thrillers. He lives in Nevada with his wife and son, stays involved in several law enforcement, education, and literacy organizations, and flies for Angel Flight West and Civil Air Patrol. **Kurzbeschreibung** The best military adventure writer in the country today.
