(first time I've heard her name) is what usually gets classified as Contemporary Romance (in fact, the subtitle reads "A Blueberry Springs Chick Lit Contemporary Romance"), and it fulfills this class very well: Young woman is torn between two guys; which one will she choose? The setting is a small town small enough for everyone to know each other, where Beth is busy making plans for her upcoming wedding to the man she has loved for years before he realized she was not just his little sister's best friend. So immersed is she in her plans and dreams of a happily ever after in the lap of a big, reassuring family, that it takes her a while to see that something is bothering her fiancé. Finally, he admits to be unsure about who he is, who he wants to be and where he stands in life, and the wedding is cancelled, much to Beth's devastation. The small-town gossip surrounding her wherever she goes, from her workplace at a nursing home to groceries shopping or the garage, does not make things easier. But then a new doctor arrives at the clinic attached to the home where Beth works, and he seems to have everything her ex-fiancé lacks. She still loves her ex, but the doctor seems to be offering so much more in terms of romance, lifestyle and education, apart from being entirely sure of his abilities and plans for the future. From the moment this doctor first appears in the book, the reader knows what is going to happen. For a while, though, what decision Beth will take in the end is not so obvious; the story could go either way. But at a certain point a little more than halfway through the book I knew what was going to happen, and merely kept reading on because I wanted to confirm that I was right. Beth, both as a character as well as in her general behavior, was not really my cup of tea; I could relate to few of the things she did and wanted, but I am sure that type of woman does exist. I much more sympathized with her ex-fiancé as well as with her new guy, the doctor; with her sister, with her best friend, and even with her gran. 0 von 0 Kunden fanden die folgende Rezension hilfreich. Small town story Von ulli-muc The story is set in a very small town in rural America. The heroine is a wholehearted member of said small town who is on an unwanted break from her relationship. After a short time, she meets another man and the story unfolds. I liked the book o.k. but I couldn't really relate to the heroine, couldn't really understand her decisions and I found some of the characters almost annoying. Also, the ending was really predictable, even after having read only a short part of the book - but seeing as it's kind of a romance, that is not really surprising ;-). All in all an o.k. book, but not a must-read and definitely not one that I will read again.

While none of her characters have lived in an old schoolhouse helping their parents raise honeybees like Jean did, other parts of her childhood have managed to sneak their way into the Blueberry Springs series. Jean loves to ski, hike, camp, read, write, and watch romantic comedies. She lives in Canada with her husband who isn't impressed by the amount of romance novels she's downloaded using *his* ereader's account (sorry, honey!), two kids who like to keep her hopping by having sudden growth spurts which requires her to go shopping, a very large dog who sheds year round meaning lots of time with the vacuum cleaner, and a fat cat who likes to curl up on her keyboard while she tries to write. She loves connecting with readers and has a romance goodies mailing list where she sends out free newsletters of goodness--freebies, giveaways, book news and more: www.jeanoram.com/signup.
