Awesome start of a series!!! love it!!Von Anne B.What an awesome start for a new series by James Cox!After reading the "Handsome"-series, I really was curious for this new series and couldn't wait to start reading. And I wasn't disappointed, in no way at all!!The environment the story is settled in is one rough and hard future, where the human population is settled on Mars and Earth is a "prison colony". Alcohol and drugs will be sentenced, gays have to fear

death, black people are slaves and women are only there for breeding. The Outlaw MC is one adversary against the government to help people and save some free will..As usual the characters are unique, handsome, dark, tough guys but at least have a heart of gold and a longing to love and be loved in return one can hardly resist!So meet Chaos, one tough sexy biker of the Outlaw MC from Mars. Sentenced for drinking alcohol he has to stay 6 month in prison in earth. There he has to fight to survive. And then he meets Beau, sweet and innocent and just adorable in Chaos' eyes. Chaos falls for him though he fears his own past and his rough being aren't no good for the sexy young man. When his rage takes over no one would be safe and Chaos would hurt even the one he loves and wants, wouldn't he? But Beau touches something deep inside him....could he be the one? When Beau's time in prison is over and he has to leave Chaos fears to loose him. Will he survive the three months without Beau? Will Beau wait for him and meanwhile be safe?I loved each word of this story and can't wait to see and read more of this new world James has created us. The story leaves plenty room for more action to come and hopefully some sexy hot guys, too!! James' writing is sexy and unique as the hunks he writes about and I am more than happy I will get my monthly dose of 'Cox' again!!

KurzbeschreibungWhat if bad guys ruled the world and the good guys were the outlaws?Im Chaos, patch member of Outlaw MC of Mars. We fight against the governments warped rules under the guise of hover bike enthusiasts. Gays are put to death. Women are used for breeding. Dark-skinned men are considered slaves. I told you our world is messed up and the battle is going to be bloody. Im currently on my way to Earth for a six-month prison sentence. Level six is for sex, a twisted buffet of ass and mouth. Level five is for the fights. Thats where I shine. Beau is a sexy Hispanic man thats too goofy to play with the big boys. He was loaned to me for some quick, naked fun. But it turned into something else. I dont do relationships because of my past. My father was a serial killer. But it seems that now, I have a boyfriend. Its complicated.Beau is released from prison before me. Can I survive three months without his calming touch? Will he survive on Mars amid my dangerous and violent club without me?KurzbeschreibungWhat if bad guys ruled the world and the good guys were the outlaws?Im Chaos, patch member of Outlaw MC of Mars.
