**Von Portia MacIntosh : How Not To Be Starstruck** before purchasing it in order to gage whether or not it would be worth my time, and all praised How Not To Be Starstruck:

KundenrezensionenHilfreichste Kundenrezensionen0 von 0 Kunden fanden die folgende Rezension hilfreich.  
greatVon Simona ElenaI'm totally in love with this cover, gorgeous!!!Nicole is a music journalist and friends to great musician. Dylan King is her best friend and she goes on tour with the band Two For the Road. Her life on tour is full

of fun, partying and flirting. It so much fun being on this journey with Nicole and the musicians. I love music and it was great to get an inside to this whole world. Of course there is a lot going on with misunderstandings, drama and the media. Nicole always had a crush on Luke and when the kiss passionately she is over the moon. But then on a later occasion everything is weird and not the same. Then there's Charles, Dylan's gorgeous PR agent. They get to know each other on Dylan's wedding. I liked Charles, and I also liked Charles and Nicole as a couple, so couple. However, it turns out that he doesn't really trust her. I love the scene when they saw each other again and Nicole did something awesome!!! Her friendship with is tested in a hard way and I was really surprised by Dylan's behaviour. I just hoped that everything would turn out okay. Nicole is thrown into the spotlight and has to deal with a lot of things at once. It's hard when some people just don't believe you. It was so sweet how Luke cared for her. Their chemistry was there all the time, but as a reader I never knew if Luke was honest about his feelings and I was kept guessing on the ending and both their futures. Luke has also other problems and issues to deal with and I just hoped for Nicole to keep him out of it. He really scared me at one point, which made this story even more fascinating and interesting. Portia's writing took me in immediately, it's so bubbly, vivid, creative and sparkling! Well done Rating: 4.50 von 0 Kunden fanden die folgende Rezension hilfreich. One of the best books I've read for a while Von Nicole I am totally in love with the heroine Nicole Wilde. She is disorganized, funny, sweet and totally nuts. I hope for more books from Portia MacIntosh. There is a prequel to this book called "Between a Rockstar and a hard place" which is equally good. 0 von 0 Kunden fanden die folgende Rezension hilfreich. toll Von Beada's Buch hat komplett meine Erwartungen erfüllt. Eine schöne Rock'n'Roll, Tour, Groupie Story zum schnell mal nebenbei Durchlesen. Hier und da wird es vielleicht ein paar Lesern etwas zu kitschig sein, ich fand es hier mal völlig ok.:)

Kurzbeschreibung Nicole Wilde's life is one of sell-out gigs, bunking on tour buses, trashing hotels and partying with the band all night long. But she's not in the band. She is a music journalist, paid to be the world's greatest groupie and she loves it! Nicole has the party lifestyle and the hangovers to prove it but no one stops her in the supermarket on a bad hair day. Until she is papped in an incriminating position with recently married mega-star Dylan King of The Burnouts and the tabloids start hounding her. This isn't so fun. Especially when her make-up is a mess and she hasn't yet had a chance to clean her teeth. Dylan accuses her of ruining his marriage. His handsome PR agent, Charles, calls her a tart. She has to take gorgeous Luke from Two For the Road to hospital after a drug incident. And she's dropped her mobile phone in the bath! Too much celebrity lifestyle for one week? Time to slow down and take stock? Maybe for somebody else. But Nicole Wilde is going to come out fighting! Don't miss Portia MacIntosh's linked novella Between a Rockstar and a Hardplace to see where Nicole started out! Praise for Portia MacIntosh 'How Not to be Starstruck was impossible to put down, hilarious, fun, flirty and packed with excitement.' - Victoria Loves Books 'A brilliant story full of fun, gorgeous rockstars, big egos and great friendships.' - A Novel Thought 'if you are looking for a fictional tale of outrageous excess and the rock star life it is well worth a read.' - Books with Bunny 'For a Sex and the City meets Gossip Girl meets "Life of the rich and famous" -vibe: get yourself a copy of both Portia's novels. Very, very enjoyable read and can't wait for more!' - M's Bookshelf 'I can not recommend this book highly enough, it is a must read for any one fancying a light heart and humour read, which can be devoured in one sitting.' - Compelling Reads
