great read! Von Simona Elena\*Book provided by the author in exchange for an honest review\*Ed is the typical macho guy, only dating for fun and he doesn't want a serious relationship. Oh and did I mention he's a billionaire? He starts a bet with his sister Callie and his best friend Will, who'd like to see him date a girl longer than one night ending in bed. He meets Millie Brown in an accident kind of way and the bet starts. I liked Millie instantly, she's independent, knows what she wants. She doesn't want to be in a relationship as well and it has to do with her past. We find out that they both have secrets and don't want to talk about their families. Ed doesn't want her to know that he's rich. Well, she was about to find out I saw Ed and Millie falling for each other more and more after every page, although they didn't realise it for themselves. They both had a lot of stuff to figure out and some drama to deal with. It was great to see them help each other see the light. There were some pretty emotional and touching scenes, which made the characters seem even more genuine and real. On the other hand, there were some funny scenes as well, which made me smile all over my face and laugh out loud. Of course there was also a lot of romance involved and these scenes were written in a brilliant way, steamy, passionate and playful. Jane found a great way to share this with us readers and describe the story in a true, sincere and fascinating way. It shows what love can do to people and that if you find the right person you change all your values to be with THE ONE. When the whole truth comes out, also about Ed's family and Millie's past, their feelings are put on a test, but they seem to realise what they feel for each other. The last few scenes were really sweet and honest, I loved that. This book is a great summer read with some great drama, love and laughter involved. Rating: 4.5

Kurzbeschreibung I saved your life twice and you're refusing me a date? Take Millie: a fun, independent dance teacher starting over, whose burlesque classes are all about self-esteem and empowerment. Her new life plan definitely doesn't stretch to bad boys. And Ed: he's gorgeous, designs firework displays for a living and positively self-destructs at the thought of commitment. But he's embarking on the impossible challenge to have ten dates with one woman. When Millie literally lands in Ed's lap after an accident, she's an unlikely choice for the ten date challenge. Scuffy, opinionated and then there's the small matter of that tattoo snaking out of her boot but he's running out of options, and more importantly, she owes him. She's so not his type, he's so not in her life-plan, but a weekend in sunny Provence changes everything. Against a backdrop of starry skies and lavender fields, they both have issues they want to leave behind. Secrets have a way of escaping though is ten dates too long to keep the truth under wraps? Nominated for Best Ebook at the 2013 Festival of Romance. The main characters are vividly drawn...the sex scenes are hot, and the writing is fast and feisty.' - Contemporary Romance s "For those that like Sophie Kinsella style books, this is a cute story about a guy determined to prove he won't fall for a woman..." - CocktailsandBooks.com "Ed is my ultimate book boyfriend - I loved him from page 1...is it normal to be this attracted to a fictional character?"
