Von Matt Haig : Humans: An A-Z before purchasing it in order to gage whether or not it would be worth my time, and all praised Humans: An A-Z:

KundenrezensionenHilfreichste Kundenrezensionen1 von 1 Kunden fanden die folgende Rezension hilfreich. A Great Resource on HumansVon darklittl ladyIt is great to finally have someone explain humans to us and it is much better if this someone is Professor Andrew Martin. Only he, not being a human himself, can give us quasi-objective descriptions of certain characteristics unique to this species.Dont be afraid, this book isnt your usual dry, scientific text-book. You will hop from term to term and you probably wont get enough. Professor Andrew Martin has lived with humans long enough to know what they are like. More than once, you will be nodding in agreement. Sometimes, you will have to laugh out loud. Once in a while, you will ask yourself if this alien has found a way to look inside the

human soul.No matter if you are human or alien, Humans: An A-Z is a must-have companion. After reading, you will know much more about humans than you knew before and it will give you comfort in times of distress.1 von 1 Kunden fanden die folgende Rezension hilfreich. Originell und witzig - aber mit TiefgangVon dieleseratzDer Autor hlt uns sozusagen den Spiegel vor - aus der Sicht eines "Aliens" ist so einiges merkwrdig, was wir hier auf der Erde zelebrieren.Seien es Essensgewohnheiten, merkwrdiges Paarungsverhalten, Gewohnheiten - aus seinen Augen betrachtet wirkt es manches skurril, was wir hier zelebrieren.Von A wie Adultery bis Z wie Zoo bringt er einiges zu Wort, was durchaus zum Nachdenken anregt.:Beispiele gefllig?Friend: Someone whole will tell you the truth. Often mistaken for enemyFuture: Like the present, but butter. (If you are Young)Hope: Hope is a belief in the possibility of positive outcome, despite overwhelming evidence against it.Fazit: Zum Schmunzeln, mit Tiefgang. Intelligente Unterhaltung. Sehr empfehlenswert!0 von 0 Kunden fanden die folgende Rezension hilfreich. Clever and hilarious!Von LeloA must for everyone who read 'the humans' by Matt Haig. Very clever, funny and full of truth about being human.Please avoid reading this in public - you will laugh out loud!

KurzbeschreibungDO YOUA) Know a human?B) Love a human?C) Have trouble dealing with humans?IF YOU'VE ANSWERED YES TO ANY OF THE ABOVE, THIS BOOK IS FOR YOUWhether you are planning a high level of human interaction or just a casual visit to the planet, this user-guide to the human race will help you translate their sayings, understand exotic concepts such as 'democracy' and 'sofas', and make sense of their habits and bizarre customs.A phrase book, a dictionary and a survival guide, this book unravels all the oddness, idiosyncrasies and wonder of the species, allowing everyone to make the most of their time on Earth.Author Biographies:Professor Andrew Martin is a former citizen of Vonnadoria who travelled nine million light years to become a Professor of Mathematics at Cambridge University. Ever since discovering poetry and peanut butter and something called 'love' he has warmed to this species and decided to call Earth his home.Matt Haig is the author of five novels, including the bestselling The Last Family in England, which has been optioned by Brad Pitt's production company, The Radleys, which was selected for Channel 4's TV Book Club and was voted the winner of the series in 2011 and, his most recent, The Humans, which is a World Book Night 2014 title. His works have been translated into over twenty languages, and he has also written award-winning books for children. He lives in York and LondonPressestimmen"Haig strikes exactly the right tone of bemusement, discovery, and wonder in creating what is ultimately a sweet-spirited celebration of humanity and the trials and triumphs of being human. The result is a thought-provoking, compulsively readable delight."
