**Von Eri Kuotou : Hunted Blood (Heart's Fate Book 1) (English Edition)** before purchasing it in order to gage whether or not it would be worth my time, and all praised Hunted Blood (Heart's Fate Book 1) (English Edition):

KundenrezensionenHilfreichste Kundenrezensionen0 von 0 Kunden fanden die folgende Rezension hilfreich. A tale that will make you smileVon MDHHunted Blood is a story about a young woman living and working peacefully in Japan. But that idle world she lives in changes the moment she learns there are beings like vampires that are going after her blood. She is rescued by a young somewhat cold shape-shifter and both of them try to uncover who she's actually hunted by and why she's hunted at all.The setting isn't something ground-breaking, but the way it is executed

is very good. (Let's be honest, all fantasy genre books are similar to each other in more than one way.) I've felt myself being sucked into this story and it only let me go, after I finished the book. The book keeps you reading in suspense, because you don't have a clue what is going to happen next. Props to the author for that, she had me in the dark for almost 3/4 of the book. And I loved it, because you'd usually get an idea, who is behind all of it, but it wasn't so for this book. The two main characters were lovely, they felt genuinely real. The struggles, fears and feelings... You could feel them. But the best parts are the interactions of main characters. They are hilarious! Those two had such an explosive chemistry. Take this literally, there are scenes that are indeed explosive when it comes to feelings and their resulting actions. That amazing chemistry brought both characters and their relationship to life and left me hoping for more. As for the side characters, they were unique and all had a nice developed back story. I would have loved to see some of their problems resolved too, but that would have probably made this novel an endless novel. :D Oh, I almost forgot... The main character isn't a damsel in distress, she will kick hinder quarters if she needs to and boy, she can kick! I would recommend this book for all those, who are searching for a fantasy romance book that is not cheesy, eventful and full of hilarious interactions of the characters. Also if you enjoy a strong female lead, this book should be on your have to read list. ;) This book contains a closed and completed story line. The second book addresses another story of the two main characters.

Kurzbeschreibung Luke is a shapeshifter on a job to track down and dispose of two rogue vampires. When he finds them tracking a human in rural Hokkaido, he isn't prepared to protect Mae, a stubborn and strong headed woman, who is inexperienced with not only the hidden supernatural world, but men in general. Whenever she interacts with the demanding and strong shapeshifter Luke, she finds herself attracted to him just as much as she's frustrated with him. Coming to terms with the new dark and sinister world around her, she must team up with Luke, and together they must confront their feelings in order to fight off danger and uncover who is after her blood.
