Von Jude Sierra : Hush (English Edition) before purchasing it in order to gage whether or not it would be worth my time, and all praised Hush (English Edition):

KundenrezensionenHilfreichste Kundenrezensionen0 von 0 Kunden fanden die folgende Rezension hilfreich. Hush is a compelling, thoroughly entertaining and wonderful storyVon From Top to Bottom ReviewsOMG! What a book, what a brilliantly written story. So captivating and beautiful!I dont know why it took me so long to read it.I read What it Takes by Jude Sierra back in january, LOVED it, and bought Hush right after I had finished it but then I never started it.About two weeks ago Hush constantly popped up on my twitter and goodreads timeline and I thought I had

to finally read it. And OMG! Why did I wait so long??Its so good!I had a bit of a problem to get into it at first (were talking like the first two chapters here, so really not that long) because of how fast the POV switched. But once I was in I loved that we got both Wrens and Cams point of view.This story isnt your usual m/m romance. But Jude Sierra seamlessly wove the supernatural part of the story into the real world and created an enthralling story with fantastic characters. I found the gifted population really interesting and would have maybe liked a bit more information about that.I loved both protagonists but especially connected with Wren. Hes so scared of getting hurt and think that if he has absolute control over Cam (or well any situation really) he wont get hurt again. So right from the beginning he tries to call the shots but doesnt anticipate that Cam would get under his skin regardless of who is in control.Cam was a great character. I felt like he took everything in stride, no matter what Wren did.When I first read the blurb for Hush I was a bit worried about the consent aspect of this story because Wren can compel anyone to do anything he wants. It just screamed dangerous to me. But Jude Sierra never crossed that line. Everything Wren does, he does with full consent from Cam.Hush is very different from What it Takes but I loved it. Shows that Jude Sierra can probably write anything and we (the readers) can be sure its good! Wren is not the only one who can compel. Jude Sierras writing style is also so damn compelling and almost hypnotic that I found it hard to put this one down. She pulls you in and doesnt let you go and I really, really didnt want this book to be over.Hush is a compelling, thoroughly entertaining and wonderful story. Definitely recommend this one and if you havent read What it Takes yet be sure to check that out too! Ms. Sierra is one of my auto-buy authors and Im really, really looking forward to Idlewild which comes out in october.0 von 0 Kunden fanden die folgende Rezension hilfreich. Wonderful!Von KundeThe writing in this book is absolutely beautiful. That was what first drew me in, but then I quickly fell in love with pretty much every single character in the story. It was so easy to feel for them and with them and ugh seriously I just want to wrap them in a blanket and keep them safe and be friends with all of them. I liked the friendships in this story as much as the love story - a good friendship story will always get me and I really liked how both Wren and Cam had amazing friends who truly loved them. A beautiful book!

KurzbeschreibungA worthy read and a valuable addition to the genre. Library JournalWren is one of the gifteda college sophomore with the power to compel others feelings and desires. He uses his power as a game of sexual consent until Cameron, a nave freshman, enters his life. As Cameron begins to understand his sexuality and gain confidence under Wrens tutelage, Wren grows to recognize new and unexpected things about himself.Will Camerons growing confidence finally break down Wrens emotional walls, or will Wren walk away from his best chance for love?KurzbeschreibungA worthy read and a valuable addition to the genre.
