Sweet romance to cuddle up in front of the fire with Von Andy scott This is a sweet book about Shy, a 24 year old divorcee who moves with her 4 young children to West Virginia to start a new life. Written in the first perspective of both the

main characters this story moves along swiftly and gives plenty of insight into the mindset of both Shy and her love interest Willy. This is not your normal romance novel, this one actually has a credible story and characters with depth. Lovely weekend read.

KurzbeschreibungCheyenne makes the huge decision to move with her four young children to the mountains of West Virginia. Despite coming from a small town in west-central Florida, she had been living in upstate New York with her ex-husband... had been, those were the key words. After finding out her ex-husband was having an affair with a childless eighteen year old girl, Shy calls it quits. West Virginia had long ago found a special place in her heart. The mountains are beautiful, the people are friendly, and you can find a piece of the old life hidden out in the hollers. Shy hopes she will find a new life for her and her children. She wants freedom, and a simpler way of life. What she doesn't expect to find is a rough-around-the-edges backwoods boy with plenty of troubles of his own to entrap her heart so quickly after the end of her marriage... or ever, come to think of it.
