**Von Alistair MacLean : Ice Station Zebra** before purchasing it in order to gage whether or not it would be worth my time, and all praised Ice Station Zebra:

beginning of this book it wasn't very interesting, it seemed like another stupid war book. But seems to be ordinary is far, far from. It builds into one of the most suspenseful and intriguing mysteries ever! MacLean feeds you little bits of info at a time, not enough to give anything away, but enough to keep you reading. You'll truly be surprised at the ending! The best book I've read in a long time. Tell your friends. 0 von 0 Kunden fanden die folgende Rezension hilfreich. Cold War, Cold Water, Cold Hearts Von CustomerIce Station Zebra Cold war, Cold water, Cold hearts A thrilling novel that takes the reader under the polar ice cap, out into the wasteland of the drift ice, and from end to end of submarine. This novel satisfied me on two levels: the thriller-adventure level, with the right level of confusion to keep me thinking and just the right tension to keep me reading almost without a break, from cover to cover. MacLean conveys the chill of the Arctic perfectly, and you can almost feel your own skin peeling away as you read. The other aspect that was so well portrayed was the whole aspect of the submarine; the life the spaces... By the end of the novel I felt I had been living in the sub. along with all the others. MacLean presents us with some extreme characters, but always with his powerfully convincing pen, that carves out their features on the right side of stereotype. I believe them. That's what this literature is about, too. Needless to say that the plot is clever and MacLean keeps the suspense to the last page. If some of the technical aspects of the novel seem outdated (film, old-batteries etc) the atmosphere of cold water and cold war are ever-present. 1 von 1 Kunden fanden die folgende Rezension hilfreich. I got transported inside the book while reading:-) Von Ein Kunde This book is damn exciting and it is the best suspense I have read up till now. Please do not miss reading this after you see this review. The hero has some other ideas which you will not be able to guess till the last. Now, have I given out the story? Do not worry, I haven't. There is much much more.

Kurzbeschreibung A classic thriller from the bestselling master of action and suspense. The atomic submarine Dolphin has impossible orders: to sail beneath the ice-floes of the Arctic Ocean to locate and rescue the men of weather-station Zebra, gutted by fire and drifting with the ice-pack somewhere north of the Arctic Circle. But the orders do not say what the Dolphin will find if she succeeds that the fire at Ice Station Zebra was sabotage, and that one of the survivors is a killer.
