Von Jennie Hansen : If I Should Die before purchasing it in order to gage whether or not it would be worth my time, and all praised If I Should Die:

KundenrezensionenHilfreichste Kundenrezensionen0 von 0 Kunden fanden die folgende Rezension hilfreich. Worthy ending to a wonderful series! Von CassandraI really enjoyed this last installment in the "Die For Me" series. The second book had a major cliffhanger ending and I was pretty curious how Amy Plum would continue from there on. It picks up right in the scene where the last book ended so I wasn't kept wondering what had happened with Vincent for long, thank God! The story took some surprising turns that I hadn't seen coming. The big revelation I had guessed but

there was enough to surprise me and keep my interest. I loved the part about Revenant lore and their history with the "gurisseurs". I also liked how most of the subplots and the storylines of the other characters were handled. It all came to a satisfying conclusion, even though not everyone survives the final battle and not everything is spelled out in detail. But I liked that, it felt more realistic. Another thing that I adored was that there are some Germans in it and for once they are not the bad guys. :)The only complaint that I have is that I wanted Vincent and Kate's relationship to feel a bit more passionate and dramatic. Sometimes it was a little too much tell not enough show for me.SMALL SPOILER ALERT!For instance, when Kate thinks Vincent will be a wandering soul forever I wanted her to be more upset. Yes, she was crying but she recovers pretty quickly which is probably meant to show her strenght but honestly, if the love of my life was virtually gone and as good as dead I would have cried my eyes out and felt a much deeper despair. Again, when they are reunited I wanted it to be, I don't know, just MORE!SPOILER ENDParis, as the setting of most of the novel, is almost her own character. I love Paris, have been there once and was able to picture some of the sites and at least roughly know where other scenes took place. The fact that the books are set in this wonderful city was one reason why I picked up this series in the first place.All in all I think this was a worthy ending to the series and I will definitely keep an eye on Amy Plum's future books!0 von 0 Kunden fanden die folgende Rezension hilfreich. If I Should Die - Amy PlumVon Books on HeelsWith the last book ending on a cliffhanger I was truly excited to read how the story of Vincent and Kate will continue. I even pre-ordered the book, although I seldomly do so and then the unspeakable happened. The post sent back my package without delivering it. So after waiting for months to know what's going to happen, I had to order the book a second time. You can't imagine how thrilled I was once I held the third book of the Die for me trilogy in my hands. :)The book itself was wonderful. A beautiful cover once again; it's simply gorgeous. Kudos to the artist! Amy Plum has a way with words that makes it easy to follow along and read the whole book in one session.I did enjoy the storyline. However, I have to say that the moment they announced that Vincent is not the champion, it was obvious that Kate's going to turn out to be the Victor. There was nothing surprising in it, as it was the obvious choice for the plot choice. The only question in my mind was: How will Amy Plum pull it off??? And she did it brilliantly. All story pieces fitted together perfectly.The feelings between Vincent and Kate were deep and it was nice to follow their relationship develop. Unfortunately I felt that Jules' feelings were a bit left out. They never were on the center stage, obviously, but it didn't seem believable - or let's say, the depth of his feelings wasn't palpable. So if you're looking for more of that, I definitely recommend Die For Her.Apart from those minor things, it was a thoroughly enjoyable read! Amy Plum's revenant trilogy carries you off into another world! You might even catch yourself dreaming about those characters! I wasn't a big Paris fan before, but it is the perfect place for the Die for me series. The city and the author's descriptions of it add a mythical and almost melancholic touch to the story. I even found myself longing to be walking along the Seine or reading in a little French caf. So beware when reading If I should die, you might end up buying a plane ticket to Paris in the very near future! ;) 0 von 0 Kunden fanden die folgende Rezension hilfreich. WOW!!!Von Kim PossibleMusste mir das Buch damals auf englisch bestellen, weil die Deutsche Ausgabe noch nicht draussen war.Super verstndlich und einfach ne tolle Story! Ich liebe die Bcherreihe :D

KurzbeschreibungOne morning on a routine jog, Kallenes running partner, Linda, confides that shes filing for divorce. The next morning, shes gone without a trace, leaving behind her frightened young daughter. Since Lindas enraged husband refuses to notify the police, Kallene steps in to initiate a missing person search, not knowing it would soon become a murder investigationor that shed soon fall for the charming lead detective. With Lindas handsome brother also on her mind, Kallene must navigate the rapids of a double romance as well as the deepening suspicion in her upscale Utah neighborhood. Intrigue turns to danger as Kallene faces the consequences of hasty judgments. And when startling new evidence casts Lindas murder as the work of a determined killer, Kallene needs the intervention of unlikely heroes to avoid being the next victim.KurzbeschreibungOne morning on a routine jog, Kallenes running partner, Linda, confides that shes filing for divorce.
