**Von Jennifer McAndrews : Ill-Gotten Panes (A Stained-Glass Mystery)** before purchasing it in order to gage whether or not it would be worth my time, and all praised Ill-Gotten Panes (A Stained-Glass Mystery):

KundenrezensionenHilfreichste Kundenrezensionen0 von 0 Kunden fanden die folgende Rezension hilfreich. NiceVon jeanne adamekI liked the book, but still I felt not totally satisfied. I could relate to Georgia, but couldn't relate to most

of the other characters--not that I didn't like them. It just felt like Georgia couldn't see them real clearly and that is the way they were projected to me. I also felt like there was too much going on, and was not completely happy with the solution of the mystery--it didn't quite feel tied up. My biggest peeve was that there was not enough about the stained glass making/repairing for me. I really hope that the next in this series has more information. Still this was a fast read, and did overall hold my interest to the point where I want to read the next book. 3.75 stars. 0 von 0 Kunden fanden die folgende Rezension hilfreich. Sehr schön

Eine schöne "Cozy Krimi" vom Berkley Prime Crime. Nette und interessante Leute, einige Informationen über stained glass und ein gelungenes Debüt.

**FIRST IN A NEW SERIES!**  
Stained-glass aficionado Georgia Kelly packed up her city life for the quiet of small town Wenwood, New York. But the sleepy village's peace is about to get shattered by murder. After a banking scandal loses Georgia her job and fiancé, she decides that a change of scenery will help piece her life back together. But escaping to her grandfather's house in the old-fashioned, brick-making Hudson River hamlet of Wenwood, New York, turns out to be less relaxing than she expects. Not only is the close-knit community on edge about their beloved brickworks being turned into a marina to draw in tourists, one of those most opposed to the project winds up dead, cracked over the head with a famous Wenwood brick. Georgia wouldn't be broken up over the news except for the fact that the main suspect is the deceased's biggest adversary, her grandfather. Now, to remove the stain from her grandfather's record, Georgia will have to figure out who in town was willing to kill to keep the renovation project alive, before someone else is permanently cut out of the picture.

Jennifer McAndrews' love of mystery began in middle school, and despite the occasional foray into romance fiction, she is happiest when weaving puzzles on the page and leaving a trail of clues for the reader to follow. She resides in the greater New York metro area with her husband, children, four cats, and three rescue dogs.
