Von Rachel Caine : Ill Wind: 1 (Weather Warden) before purchasing it in order to gage whether or not it would be worth my time, and all praised Ill Wind: 1 (Weather Warden):

Kurzbeschreibung Some Weather Wardens control fire, others control earth, water, or wind - and the most powerful can control more than one element. Without Wardens, Mother Nature would wipe humanity off the face of the earth... Joanne Baldwin is a Weather Warden. Usually, all it takes is a wave of her hand to tame the most violent weather. But now Joanne is trying to outrun another kind of storm: accusations of corruption and murder. So she's resorting to the very human tactic of running for her life. Her only hope is Lewis, the most powerful Warden. Unfortunately, he's also on the run having stolen not one but three bottles of Djinn - making him the most wanted man on earth. Still, Joanne and her classic Mustang are racing hard to find him - because there's some bad weather closing in fast...From Booklist Joanne Baldwin is a weather warden, who can control the weather and keep it from being more chaotic and destructive than it already is. She is on the run, though, for she is accused of killing a senior warden, which she did, sort of: a thread of corruption runs through some of the most powerful wardens, one of which put a Demon Mark on her and then died. Her only hope now is to get a djinn from her old friend Lewis, who stole three of them^B from the council of the wardens many years ago. As she runs, she picks up a hitchhiker who knows things an ordinary person wouldn't, and who offers help. With djinns and other wardens, including those sent to arrest her, all giving her conflicting information, Joanne never quite knows whom to trust in this romantic escapist romp rife with danger, excitement, and even classic cars.
