**Von Jill Barnett : Imagine** before purchasing it in order to gage whether or not it would be worth my time, and all praised Imagine:

KundenrezensionenHilfreichste Kundenrezensionen0 von 0 Kunden fanden die folgende Rezension hilfreich. Shipwreck survivors find love and a ready-made family. Von Joyously Retired TeacherHank Wyatt and Maggie Smith are nearly complete opposites. Hank is an escaped convict who has never known a real family. Maggie grew up with every advantage offered by her prominent family and became a successful attorney even before women were allowed to vote. Hank does what he has to to survive. According to him, intelligent women like Maggie who can't cook are

practically useless; however, he CAN think of at least one use for the gorgeous blond woman whose incessant THINKING is driving him nuts....It is obvious that neither Maggie nor Hank knows the first thing about taking care of the three children shipwrecked with them, including a toddler who needs to be watched constantly. Although this clearly falls into "women's work," Hank is forced by their isolation to assume his share of the responsibility. Gradually (and with the help of a genie whose bottle was plucked from the sea), the exiles find themselves adapting to their situation and becoming a family unit. But what will happen when they are rescued? As an attorney, Maggie cannot link her life to an escaped felon. But could Hank bear to be sent back to the hellish prison he escaped from? Since a single woman cannot adopt children, will the three orphans end up in the same kind of orphanage Hank grew up in? Jill Barnett's magic strikes again. A most unlikely pair are forced together through circumstances (fate) until they perceive in each other a kindred spirit beneath the surface. And to discover at last that true love gives them the strength to face an uncertain future....Jill Barnett has a real gift for combining humor and romance. One finds oneself chuckling all the way through at the hilarious situations and witty dialogue. At the same time, her characters seem to grow and evolve and mature as circumstances force them to reevaluate the direction of their lives. Ms. Barnett can always be counted on to provide an entertaining and uplifting read! 0 von 0 Kunden fanden die folgende Rezension hilfreich. Fun, charming and very romantic Von Barks Book Nonsense Whatever you do don't miss this one, you'll regret it! It's charming, heartwarming and left me feeling sooo good. It's the story of Margaret (Smitty), an attorney, and Hank an escaped convict who was wrongly accused of murder. She's an independent woman who can't cook, he's a beat 'em over the head and drag 'em by the hair kinda guy that thinks women are good for only one thing, until he gets stranded on a desert island with Smitty and three small orphans. There's also a delightful Genie with three wishes who needs to find a true believer to fulfill his destiny. The verbal sparring between this odd couple is hilarious, Muddy, the Genie, adds a touch of magic and humor to the story also makes a convenient baby sitter :), the kids are darling and the scenes where Hank warms up to them are really touching. It was so much fun to see Hank's attitude about women and children change after being stuck with them day in and day out with no escape. The last few chapters had me teary eyed. I recommend this one for anyone looking for a feel good romance with a happy ending and lots of sexual tension! This book is the ultimate fantasy. 0 von 0 Kunden fanden die folgende Rezension hilfreich. Very Good, but Jill Barnett has written better Von Ein Kunde Compare this book to Carried Away, MY personal favorite of Jill's. (You might even make the connection between the bottle the two terrors were fighting over briefly in Carried Away with a bottle in this book). While not one of her best, I still enjoyed it better than a Johanna Lindsey or an Amanda Quick, and I would probably die if someone asked me to choose between Catherine Coulter, Julie Garwood, and Jill Barnett for my favorite author. What I'm trying to say, is that if this is your first time reading Jill -- don't let it be your last.

Kurzbeschreibung After years imprisoned on Devil's Island for a murder he never committed, escaped convict Hank Wyatt knows how to survive and believes his luck has finally changed. But when he stows away on board a ship destined to sink, his luck turns bad. He doesn't know if he can last an hour when he is marooned on a deserted island with a beautiful, know-it-all blonde attorney and three orphaned children. Suddenly looking out for number one doesn't seem to be enough. San Francisco attorney Maggie Smith wants to have a good cry. Thoroughly modern, wealthy, and bright, her unwanted holiday turns bad when she is suddenly cast in the role of mother and forced to battle wits and hearts with the most arrogant, pig-headed man she's ever met. Fate has thrown this makeshift family Robinson together, and kismet tosses in a 2000 year-old floating bottle filled with magic. Is the chance for a love more powerful than they could ever imagine only a wish away? Father Goose meets Donovan's Reef in this funny and tender historical romance about misfits who find that life might not be so bad after all...if they can do the impossible, and find a way to be family. Autorenkommentar My favorite Readers often ask which book an author likes the most. I've had two personal favorites in my list of full novels to date, not because of likes, but because of the special magic that happened between myself and the characters when I was writing the story. To date, 1997, IMAGINE is the book with which I have the strongest bond. I expect my favorite book will change with the creation

of future books, but until then, this one is special to me.
