In David Weber's boring grip ...Von DIMIQulend schleppende Exposition, endlose Wiederholungen von bereits Bekanntem, eindimensionale, einfrmige und uninteressante Charaktere, physikalische Unmglichkeiten - kurz, eines der blichen Machwerke von David "bore them to death" Weber. "Fast paced" ist seine Sache nicht...2 von 2 Kunden fanden die folgende Rezension hilfreich. The most boring, insipid work I have tried to read.Von Ein KundeI have read other stories by Weber that were quite good but this is unspeakable. Actually, I tried to read this novel three times and each time found that it cannot hold my attention for more than 10 minutes. It is wordy, slow, rambling and just plain

DULL.1 von 1 Kunden fanden die folgende Rezension hilfreich. This is a total disappointmentVon Ein KundeI love the Honor Harrington Books, but not this book. It really left a bad taste in my mouth. Only the beginning and the end held anything good in this book. Bad enough that I had to return it so that seeing the book doesn't spoil my love of Honor Harrington.

KurzbeschreibungThe Road to HellHonor Harrington's career has its ups and its downs. She's survived ship-to-ship battles, assassins, political vendettas, and duels. She's been shot at, shot down, and just plain shot, had starships blown out from under her, and made personal enemies who will stop at nothing to ruin her, and somehow she's survived it all. But this time she's really in trouble. The People's Republic of Haven has finally found an admiral who can win battles, and Honor's orders take her straight into an ambush. Outnumbered, outgunned, and unable to run, she has just two options: see the people under her command die in a hopeless, futile battle... or surrender them-and herself-to the Peeps. There can be only one choice, and at least the People's Navy promises to treat their prisoners honorably. But the Navy is overruled by the political authorities, and Honor finds herself bound for a prison planet aptly named "Hell"... and her scheduled execution. Put into solitary confinement, separated from her officers and her treecat Nimitz, and subjected to systematic humiliation by her gaolers, Honor's future has become both bleak and short. Yet bad as things look, they're about to get worse ...for the Peeps. At the publisher's request, this title is sold without DRM (Digital Rights Management). A lifetime military history buff, David Weber has carried his interest in history into his fiction. In the New York Times best selling Honor Harrington series, the spirit of both C.S. Forester's Horatio Hornblower and history's Admiral Nelson are evident. With over five million copies of his books in print, David Weber is the fastest rising star in the Science Fiction universe. His Honor Harrington series boasts over 3 million copies in print, and Weber has had over thirteen of his titles on The New York Times Best Seller List. While he is best known for his spirited, modern-minded space operas, he has also developed a fantasy series, of which two books have been published: Oath of Swords and The War God's Own. David's solo work also includes three novels of the "Dahak" series, and the stand alone novels: Path of the Fury and The Excalibur Alternative. Weber's first published novels grew out of his work as a war game designer for the Task Force game Starfire. With collaborator Steve White, Weber has written four novels set in that universe: Insurrection, Crusade, In Death Ground, and The Shiva Option. Recent bestsellers in planetary adventures also include the teamwork of John Ringo in the best selling Empire of Man series where the titles March Upcountry, March to the Sea, March to the Stars and We Few have made appearances on The New York Times List. Weber's proliferation continues with author Eric Flint, where they joined forces in the Best Selling "Ring of Fire" alternate history series, for 1634: The Baltic War, coming in May.
