Fine.Von eva__The story was ok, albeit a little weird. It is one of those stories where the characters act super-

unreasonable and it is not clear why. Why can they not talk to each other? Why do they each run off because they are "hurt" rather than have a normal conversation? And if they are so distrustful of each other that they won't talk to each other, why are they then "in love" with each other? I don't enjoy reading about destructive people like that.

Her mother's only criticism was not to have any love scenes. Anna was sorry to disappoint her. Several books and years later, she is happily writing heartwarming, sensual historical and contemporary romances which capture the imagination of her readers. She loves reading Jane Austen and Shakespeare, as well as modern authors. Sharing the journey are her husband of 15 years and their two children, who support her dreams.
