Von Drake Marche : In the Claws of an Omen (Article) (That What Makes us up (Articles) Book 1) (English Edition) before purchasing it in order to gage whether or not it would be worth my time, and all praised In the Claws of an Omen (Article) (That What Makes us up (Articles) Book 1) (English Edition):

Kundenrezensionen Hilfreichste Kundenrezensionen 0 von 0 Kunden fanden die folgende Rezension hilfreich. In the Claws of an Omen Von KufRHerr Marche beschreibt in ansanter Weise eine Geschichte, die durchaus

Wahrheitscharakter haben könnte. Deutungen darüber zeigen Teile des Charakters eines Menschen, ob er Optimist oder Pessimist ist. Die Wirkungen eines schlechten Omens hat Drake Marche eindrucksvoll beschrieben. Ein gutes Omen könnte den Verlust des Eheringes jedoch als eine Art Prüfung darstellen. Der Held der Geschichte hat eine Familie zu versorgen, weiß, dass er zu Hause am nötigsten gebraucht wird, geht aber dennoch zu einem Studium, um nach dessen erfolgreicher Absolvierung einen guten Job zu bekommen, um diese Familie besser versorgen zu können. Seine unermüdliche Suche nach dem Ring bestätigt den Ernst seiner Bemühungen. Das spektakuläre Auffinden des Ringes könnte bedeuten: 'Du hast dich bemüht; Du hast es geschafft; nun wird alles gut.' Diese erste Geschichte macht gespannt auf die nächsten.

Kurzbeschreibung This is the first, very short introductory article, of a series of articles, all under the title "That What Makes Us Up". It describes an incredible, highly improbable story that is based on a real and incomprehensible, unique experiences. All other stories that you will read here carry the same feature- they are real, not fictitious. As such these unbelievable, almost impossible stories might serve as a collector's item for fans or just as interesting facts for any general public. But the main point of the articles is different. The stories will serve only as a base for an attempt to give a new very personalized explanation on paranormal and supernatural events that transcend and go beyond the known limits in cases as creation of the world, origins of life, life after death, reincarnation, religion, extrasensory perceptions etc. This kind of a "brainstorming" might be useful to scientists working in the fields of the parapsychology, metaphysics, religion or philosophy in general (Article: 853 Words).
