Von Claudia RappIf you have never read a Katie MacAlister novel, you might want to start with a different one: This is more or less a sequel to her Young Adult books "Got Fangs" and "Circus of the Darned", now conveniently reprinted together under the title "Confessions of a Vampire's Girlfriend". So the young heroine is now grown up. You'll understand her better if you know her past adventures... And then, this is also part of a sort of series, the Dark Ones Novels, which began with "A Girl's Guide to Vampires"... and in Katie's universe, the heroes, heroines and all kinds of other beings, good and bad, tend to crop up again in her next novels... But if you happen to have bought this one, or like the cover and have become curious what's inside, fine. Go ahead, read it anyway. Her stuff is ALWAYS full of priceless quirky ideas, wonderful sidekicks, lots of steam and tension, sexy men and women with issues and brains. BRAINSSSSSS... oh, wait, the zombies appear in a different story. But we have Viking Ninja Ghosts with no sense of fashion but an insatiable hunger... for BigMacs and women... and ewes, if nothing else is at hand.This sounds wrong. Just read it, you'll not be disappointed. No liability for loud laughter that will get you queer looks if read in public spaces!!!
