KundenrezensionenHilfreichste Kundenrezensionen1 von 1 Kunden fanden die folgende Rezension hilfreich. Fact and fantasyVon Norman WilliamThis is only about murder and criminals as it figures into a personal development story. What Frank sees or thinks he sees are complicated by his condition and form a dynamic entirely different from that of your garden variety material witness.Frank and those around him fear he is losing his marbles and at the age of 79 the assumption is not far fetched. Kudos to the author for balancing the consequences of what Frank has seen and what he seems to be becoming before the eyes of his wife, his children and the authorities. How many of us would admit to the internal dialogues Frank is having with his inner self? Is this the way it goes before we finally slide off the edge into

darkness? At 73 I am beginning to wonder.

KurzbeschreibungSecond Edition. Newly revised and edited April 2016.What was real and what was fantasy?When Frank and Dora Parker, in their Boston Whaler, are fly-fishing for trout one day in their hometown of Twin Valley, Oregon, ghostly fog begins to roll down from the mountains. With it comes a haunting scenario. On the lakeshore, a mysterious woman emerges from the forest holding a large knife in her hand. Then a man steps out of the woods dragging, what to Frank Parker appears to be a dead body. However, only he observes this. His wife claims she doesn't see anything except fog and a desolate shoreline. How could that be? How could Frank Parker be witnessing a gruesome murder taking place and his wife, who was there in the boat with him, not see anything?KurzbeschreibungSecond Edition.
