...amazing novella in the NOCTE series!Von Bianca @BJsBBI LOVED IT!!!such a perfect little novella!It's about

Dare's mom Olivia and his dad and the whole family in England - (most of them idiots ) - back around the time Dare was created. This is such an amazing series - with every word - every page you read, you only get more #Confuzzled. This is the most mind-effed series ever! I don't have any idea what is happening at all! Well, ok - you get a few things here and there - but you just have NO idea how this series will end. I NEEEEEEED to read Lux asap!!!

Kurzbeschreibung I never knew what the consequences would be. I say that like its a defense, an excuse. Its not. Its simply the truth. I never knew what he would become to me. Through everything, hes become everything. My rock, my air, my love. My everything. And then. Things changed. Because it was wrong. Because sometimes, our sons must pay for the sins of their fathers. Or their mothers. Im afraid that Im lost, that Im damned. After you read this, youll probably agree. Really, it doesnt matter. All that matters is that I save him. Because he shouldnt pay for my sin. Judge me if you like. But keep reading. This is our beginning. This is where the darkness truly starts. \*\*\*\* This is a NOCTE Trilogy novella, with a preview of LUX at the end. Series reading order: NocteVerumInitiumLux
