Von Lyn Wood : Intense Blue (Black Lace) before purchasing it in order to gauge whether or not it would be worth my time, and all praised Intense Blue (Black Lace):

Intense Review for Intense Blue Von Norman Rogueland Erotic fiction for women by women is not exactly my sort of thing. But I happened to be laying around the house one day and picked up my lover's copy of 'Intense Blue', which she had apparently just finished. I thumbed through it at first, perhaps a little curious, and then found myself actually reading it. I thought the book would be funny for all the wrong reasons, and full of cheesy sex. But I soon changed my tune. The plot zings along, full of sly humour. The characters are gripping and believable - I was soon rooting for the good guys and mentally hissing and booing at the bad guys. As for the sex scenes - well, they were quite an eye opener and I'm still carrying out research into them with my lover. You will understand when you have finished with it. 2 von 2

Very intense, Very blue Von Chris Foster It's that old, old story of girl meets boy in romantic surroundings, girl becomes involved in the strange and mysterious goings-on around her, girl has a wide range of exotic sexual encounters and, finally, girl and boy live happily ever after. Yet, as old as the concept might be, "Intense Blue" has a delightfully fresh feel about it. It hits the ground running on page one and zips along with easy grace to a totally satisfying climax on the final page. It's fast, it's funny, and it's sexy, read it! 1 von 2 Kunden fanden die folgende Rezension hilfreich. Accomplishing the difficult Von William Rich As a fellow writer I think writing about sex is one of the hardest things to do successfully without it sounding either clichéd or hackneyed. Writing about sex, in a way both men and women enjoy, is a small miracle. Lyn Wood manages to do both. I loaned 'Intense Blue' to a female friend and she was as pleased reading it as me. Not only that, but Wood writes a strong plot and is not afraid to make the book interesting by adding items one might not know. Such, in 'Intense Blue' describing what a 'caraspace' is (relating to a bush cricket). In fact this book has the sort of story and literacy that could give erotic writing a good name. 'Intense Blue' is a thoroughly enjoyable read and I am not ashamed to tell my friends about it.
