#YoungAdult #ScienceFictionVon LayneeSorry, aber mit "Intwine" konnte ich mich wirklich nicht anfreunden. Ob nun Sci-Fi oder Fantasy, Young Adult oder nicht, ich hab schon Besseres gelesen. Der Schreibstil ist ziemlich lahm, es

gibt ein Berma an Dialog und insgesamt viel zu viel "tell, don't show" für meinen Lesegeschmack. Was die Charaktere angeht, mag ich Seth durchaus, auch wenn ich seine Handlungen nicht immer so ganz nachvollziehen kann. Ein bisschen mehr Ehrlichkeit, bitte, und ja, versuch doch ab und zu mal, andere Leute erst zu fragen, bevor du deine einsamen Entscheidungen triffst. Vielen Dank auch. Juliette andererseits hat mich vom ersten Moment an, wo ich ihren Point of View lesen 'durfte', bis ganz zum Schluss hin einfach genervt. Es tut mir leid, aber dieses Mädchen hat keinen Charakter, keine messbaren Anzeichen von Intelligenz, keine Fähigkeiten und nicht besonders viel Sinn für Ethik oder Moral. Sie reflektiert nie, was gerade um sie geschieht, warum das passiert und was das bei allen in ihrer Umgebung für Auswirkungen mit sich bringt. Sie DENKT nicht, Punkt. Ich verabscheue ihr Gejammer, ihre Oberflächlichkeit, ihren Mangel an Rücksichtnahme auf irgendjemanden anderen als sich selbst, vielleicht noch ihre beste Freundin, und ganz am Ende vielleicht auch noch Seth. Vielleicht. Nichts, worauf der arme Kerl sich verlassen könnte. Die Story strotzt vor unnützigem Gequassel, dafür fehlt es gleichzeitig an einer ausreichenden Menge an Action und jeglicher Plotline, der sie folgen könnte. Wo war denn da der Punkt? Warum erzählt man uns das alles? Als Schulaufsatz oder Halbjahresarbeit wäre das eine glatte Sechse, setzen - durchgefallen wegen erheblichem Mangel an einer Plotline. Nun ja. Ich habe zwar die Nachfolgebände auf meinem Kindle, aber gegenwärtig bin ich mir nicht sicher, ob ich mir die antun werden. Schluss mit dieser Langeweile. 0 von 1 Kunden fanden die folgende Rezension hilfreich. Fantastic! Von AlbaneYo, what a read! It takes you all over the galaxy and you should embark for a grand voyage that will keep you on your toes.

Kurzbeschreibung ABOUT THE INTWINE SAGA INTWINE is a contemporary young adult, science fiction/adventure series written by American author, Christina Moss and independently published by Christina Moss Books. This book has reached #1 Best Sellers List in Science Fiction/Adventure. For more information about Christina Moss and her other publications visit her author page. INTWINE is a super fun adventure series with a lovable ensemble of characters set in vividly written scenes. The INTWINE series takes the reader through space travel, deadly odds and star-crossed lovers with DNA so vastly different it's a constantly hovering threat. **SETTING** The story is set in the known galaxy and takes place on Earth, outer space and on a fictitious planet called Artigun. Some of the various Earth locations include Los Angeles and Burbank California, Boston, Boston's North End, Cambridge and Shelburne, Massachusetts, Wales, England and Sri Lanka. **VIEWPOINT** This original series is told mainly through the eyes of a young artist named Juliet Greenmoss, with brief viewpoint shifts to illuminate the story line. **PREMISE** There are extant references in some religious texts and other ancient writings which indicate that the men of Earth once lived for nearly 1000 years. And that is the legend that sparked the idea for this story -- man once lived to be well over 900 years old -- and it is a main premise of the INTWINE series. **SYNOPSIS** Juliette is an average high school student with typical teenage problems, but after befriending a dog and the boy he belongs to, her life changes suddenly and drastically. She soon finds herself burdened with problems and adventures far beyond not only her home town and high school life, but well beyond the scope of Earth and the known galaxy. Her ultimate goal is to discover, if she can, why humans on the planet Artigun (home of her love interest, Seth Morrison) continue to have a life expectancy of over 900 years while their actual descendants, Earth humans, suffer accelerated aging with a life expectancy of only 80 years. Along the way Juliette discovers crazy secrets lurking in the Milky Way Galaxy and beyond. Intwine is filled with modern day fun, deadly adversaries, colorful characters and old fashioned sci-fi adventures. Originally penned for a female young-adult audience, today INTWINE has successfully crossed-over to an adult audience. Fans of the series are of both sexes and range in age from ten to eighty years old. Some key topics touched upon in the series are extraterrestrial life, DNA, Art, Music, Rock Bands, Kings and Queens, Alien Life Forms, Alternate Energy Sources, Space Travel, Interstellar Politics, Human Trafficking, Buddha, Leonardo Da Vinci, New and Fictitious Technologies, Character Names, and Locations. **GENRE RATINGS OVERVIEW** Young Adult/Science Fiction/Adventure This series is not recommended for anyone under 13 years of age. Science Fiction - Strong Young Adult/Adult crossover - Yes Adventure - Strong Violence - Strong Weapons - Strong Sex - Mild Drugs - Mild Profanity - Mild The four novels in this series, in order, are titled: 1) INTWINE 2) INSIGHT 3) INCIRCLE 4) INVIRAL (forthcoming) **REVIEWS** "All the necessary plot points are hit at the perfect moments to keep a reader in suspense." --Burbank Leader "Intwine represents a valiant new foray in romantic speculative fiction with the bright promise of more to come!" --Eldon Thompson, author of The Divine Talisman "Intwine is an exciting adventure into the world of Seth and Juliette. A science fiction page-turner I couldn't put down and left me wanting more. Loved it!" --Marcie Eanes, author of Sensual Sounds "The writing style of Christina Moss is cutting edge fresh.
