You can find something for yourself no matter how your tastes run. This book has amusing characters, sex, slight suspense and a slight mystery.

Don't expect high literature, this is snack food reading.

KurzbeschreibungProtect the geek, that's the job she's been hired for, but little did this shewolf expect to fall for a man of science. As a werewolf who hires out as a bodyguard, Lexie is paid well to perform dangerous jobs. When she takes on the protection of a science geek, she doesn't expect her temporary girlfriend status to come with lots of pleasure. But a geeky human who pushes all her right buttons--and plays her body oh someone right--isn't reason enough for her to break the rules and fall in love. Something about Lexie makes Anthony push up his glasses and take note. He doesn't understand her attraction to him, but that doesn't stop him from falling hard. However, even a geek has his pride and when he finds out she's played him, he immerses himself in science to forget her touch. Everything changes after an incident at the lab, but before Lexie can decide if it's safe to give him her heart, she has to help him survive.Warning: Experimenting with a geek at home may cause uncontrollable lust.KurzbeschreibungProtect the geek, that's the job she's been hired for, but little did this shewolf expect to fall for a man of science.
