Gut fr kalte WinterabendeVon CustomerDas Buch war meiner Meinung nach ziemlich durchschnittlich und ich bin froh, dass ich sie kostenlos erworben habe.Das Buch wird abwechselnd aus der Sicht der beiden Protagonisten erzht, jedoch muss ich sagen, dass mir keine von beiden wirklich ans Herz gewachsen ist und man hier nicht wirklich von Liebe sprechen kann, da alles, woran der Mann denkt, Sex mit dieser Frau ist.Jedoch war der Schreibstil ziemlich flssig und

leicht zu lesen, und die Story fand ich im Groen und Ganzen auch ziemlich interessant.

ber den Autor und weitere Mitwirkende Valerie Maarten has been writing ever since she discovered that letters made sounds and a combination of letters made words. It wasn't until recently that she decided to share her work. She can generally be found with pen and paper in hand, scribbling the next storyline or reading one of her many favorite authors. Although she has an eclectic taste in what she reads, there isn't a romance sub-genre that she will pass up. She currently lives in Orlando, FL with her three sons, plotting to write the next story in her head that needs to be told. Until then...
