the depths of the heart and human spirit. Michael Reisig, with his first two novels, is forging a legacy that the best may one day strive to match. Reisig demonstrates amazing insight into that which lies deep in all of us, which can move us to the highest acts of love, courage, and heroism. He paints familiar and foreign landscapes with the sensitivity of a poet, then blazes those landscapes with non-stop, heart pounding action! Reisig's first novel, *The New Madrid Run*, was a page-turner that kept me awake and surging with adrenalin till dawn. Yet it was just a warm-up for *The Hawks of Kamalon*. Michael combines bold, heroic action with authentic historical detail. He knows the flying qualities and capabilities of a P-51 Mustang as well as Bob Hoover, and spins an adventure-morality tale with an audacity worthy of Bob Heinlein. With these two books Reisig shows he has embraced the art of the action thriller, and that he can carry drama, plot, and high-strung suspense from the first page to the last. But more, the serious student of writing would do well to study the powerful subtlety of Reisig's mastery of metaphor, which is skillfully crafted and evokes depths of association that strike one chord after another within the reader, until a symphony of emotion resonates within by the end of the book. Using the poet's art, Reisig has taken *The Hawks of Kamalon* one step beyond a great read, to a stirring epic. Great fun! I wait anxiously, confidently, for his next offering.

Von Ein Kunde I was fortunate to lay my hands on a pre-publication copy of "Hawks" and it cost me hours of lost sleep. I couldn't put it down. Reisig lays a solid foundation of war-torn England and the very different types of men who all but signed their own death warrants every day they took to the skies in defense of that country. Then he whisks them off to a place with different, but strangely similar troubles, of violent conflict, sacrifice, romantic love, bravery, vile evil, treachery, greed and forgiveness. It's a rollercoaster of excitement, thrills but with a message worth remembering. This book is smoother and better written than Reisig's first novel, "*The New Madrid Run*," and the characters have more depth and substance, but he has not lost his gift of story telling on a huge graphic scale. All of the detailed action, suspense, glory and excitement are still there. "*The Hawks of Kamalon*" is an action movie, sci-fi thriller, and heart-felt romance just waiting to play in your head. Reisig just keeps getting better and better!

Can't put down kind of book Von Beverly I just finished reading "*The Hawks of Kamalon*" and I couldn't believe it was over, I wanted it to go on and on. This book was filled with adventure, romance and a lot of excitement. From the very beginning I found myself up in the planes with them flying in a deminsion where everything is different from anything else I have ever known. Through this whole book I felt that I was there with them. It is a very good book that can carry you away with it to wherever it goes and leaves you wanting more. GET THIS BOOK and you will lose a few nights sleep, not wanting to put it down. Thanks again for the adventure.
