Von Evan Currie : The Heart of Matter (Odyssey One Book 2) (English Edition) before purchasing it in order to gage whether or not it would be worth my time, and all praised The Heart of Matter (Odyssey One Book 2) (English Edition):

KundenrezensionenHilfreichste Kundenrezensionen1 von 1 Kunden fanden die folgende Rezension hilfreich. Only three stars?Von Christopher BrislandBasically this book is a sound romper stomper sci-fi read. Trouble is, you cannot read this book on its own - you need "episode 1" and subsequent tales too, which leads this reader to suspect the author

is more interested in forcing sales than telling a tale which has a true beginning middle and end. If had been just this criticism, I could have forgiven and rated the tale with a fourth star. BUT...Mister Currie commits a cardinal sin in that he fails his spelling and/or proofreading tests. You POUR water, but you PORE over a plan. Another example... then there's there, their and they're. Once or twice can be forgiven, but when the book contains dozens of such gaffes, the reader tends toward frustration. These are not isolated cases; hardly a chapter passes without a cringe. Self publishing is easy these days and it is a great pleasure to be able to read a tale that too many publishers would "pink-slip" but "death by typos" is worse than a root filling. So an e-book that is as expensive as one by a "world-known" author (Brown, Clancy and even Doc Smith) really ought to be written and published to the same standard. So please, Mister Currie, pay a third-party specialist to proofread your work before dipping into our pockets. I really want to read books 3 and 4 and more, but I know I'll be biting on stone too. By the way - I just Googled "Proofreading" and there are plenty of professional proofreaders around. 0 von 0 Kunden fanden die folgende Rezension hilfreich. Spellbound Von FaZantA lot happens all the time. The story absorbs, it rarely gets too much. Looking forward to the next. This writer has fantasy. 1 von 2 Kunden fanden die folgende Rezension hilfreich. Evan Currie wie man ihn kennt Von WOA_Wolfpack Falls man das erste Buch dieser Reihe gelesen hat! Das sollte man allerdings tun um nicht vllig ratlos zu sein! Ansonsten erwartungsgem saubere Military SF von einem frischen Schreiber. Er erfindet das Rad nicht neu aber wie auch bei seinen diversen anderen Projekten merkt man die Liebe die er dort investiert hat um dieses Buch abzuliefern. Ich bereue nicht das ich bisher jedes seiner Bcher gekauft habe!

Kurzbeschreibung After an epic maiden voyage that introduced Earth to a larger universe and a cosmos full of terrifying new enemies Captain Eric Weston and the crew of the NAC spacecraft Odyssey have spent months cooling their heels under their admirals watchful eye. But when Earth's newest ally, the Priminae, strike a defense deal with the North American Confederacy, the Odyssey finally receives her orders: return to Ranquil, the Priminae's war-ravaged homeworld, and lend badly needed support against the invading Drasin. Weston and his crew are hungry for action, yet once back on Ranquil, they realize not all is as it seems. Yes, the Drasin are a formidable foe, but Weston suspects a powerful unseen force is waging the war that could alter forever the face of the universe. Determined to unmask the mysterious puppet masters, Weston and his motley crew defy NAC protocol and venture into deep space where they will discover an enemy unlike any they have ever faced. The long-awaited follow-up to the spectacular Into the Black: Odyssey One combines old-school space opera with modern storytelling to create an exhilarating new sci-fi adventure. The long-awaited follow-up to the spectacular Into the Black: Odyssey One combines old-school space opera with modern storytelling to create an exhilarating new sci-fi adventure. ber den Autor und weitere Mitwirkende Evan has been writing most of his life in one format or another, and though his post-secondary education was in computer sciences and he has worked in the local lobster industry steadily over the last decade, writing has always been his true passion. In his own words, "It's what I do for fun and to relax. There's not much I can imagine better than being a storyteller."
