**Von Laura Kinsale : The Hidden Heart (Avon Romance)** before purchasing it in order to gage whether or not it would be worth my time, and all praised The Hidden Heart (Avon Romance):

KundenrezensionenHilfreichste Kundenrezensionen0 von 0 Kunden fanden die folgende Rezension hilfreich. Disappointing.Von Ein KundeI love Ms. Kinsale's writing, don't get me wrong. My favorite character's are her

creations-intelligent, human, far more intricate than norm-but these two just didn't add up. I felt sorry for them. The heroine had shown such promise in the beginning. What really bugged me, though, was there were periods of time when years pass and they didn't even see each other. It's just the next paragraph, and oh, they're together again. The plot twists were so offsetting and unbelievable. Or maybe this is just one of her earlier books, written before historical romances became less of an I hate you, I love you, let's get it on genre.0 von 0 Kunden fanden die folgende Rezension hilfreich. Darling and disturbingVon Ein KundeWhat sets Laura Kinsale's books apart from the rest of the slush of the genre is her sunshine-and shadows juxtaposition. There is a true sweetness and charm to Tess that isn't stupid or sappy, and there's a sadness to Gryf that makes him much more than the cliched Hero of Dark Forbidding Secrets. I thought the pacing was excellent and the time spent apart is minimal (heck, there's even a whole year deleted for that reason). Buy this book and then get \_Shadow and the Star\_, it's sequel, which I believe to be the best romance ever written. ;-)  
0 von 0 Kunden fanden die folgende Rezension hilfreich. Nicely done.Von Ein KundeFrom what I understand, this book is in its second printing. It took me a while to track this book down a couple of years ago. I'm glad it is making a comeback. This book and its characters are truly a "Kinsale". You have to read all her books to know what I mean. :)

KurzbeschreibungWhen her eccentric naturalist father dies on the upper reaches of the , young Lady Tess Collier sets out to follow his last wishes: return to England and marry well. But Tess, who had accompanied her father on his expeditions since childhood, is as unconventional as she is beautiful. From Publishers WeeklyWhen her eccentric naturalist father dies on the upper reaches of the , young Lady Tess Collier sets out to follow his last wishes: return to England and marry well. But Tess, who had accompanied her father on his expeditions since childhood, is as unconventional as she is beautiful. She falls in love with Gryphon Meridon, a sometime privateer and blockade runner who is afflicted with a serious lack of selfworth that stems from a childhood tragedy. Although he and Tess share one rapturous kiss, he believes himself unworthy of her. Tess then turns to Stephen Eliot, who has more than enough skeletons rattling around the closets of his estate. Gryphon eventually returns to save Tess from Stephen. And once Gryphon sheds his neurosesalong with his clothesthis book proves most satisfying.
