Von Heather Lyons : The Hidden Library (The Collectors' Society Book 2) (English Edition) before purchasing it in order to gage whether or not it would be worth my time, and all praised The Hidden Library (The Collectors' Society Book 2) (English Edition):

KundenrezensionenHilfreichste Kundenrezensionen0 von 0 Kunden fanden die folgende Rezension hilfreich. Such a fun readVon Jen R4.5 starsI started reading The Hidden Library and thought this is good, but not as good as the first

book. The first few chapters I was just like okay...then it was like wait?! What is happening?! This is amazing!! I think I just had to get used to a slightly different voice for Alice since she is not as new to everything now. Really another great read and I cannot wait to read the next book and see what happens! While The Collectors' Society was more focused on Alice and her story, The Hidden Library focuses more on Finn. You get to see his timeline, how he thinks of the things that happened, and just get to know him more. I still love him so much. Really I loved seeing how he thought of everything that happened in his timeline. I love reading these books and seeing what the characters think of their stories (though this is a story as well so...) Finn really doesn't like his story. He really hates Tom Sawyer and wants nothing to do with him or the place he grew up. He is still hurting over Jim and I don't blame him. When he and Alice go back to his timeline it is just like yes, why would he forgive Tom? Alice was amazing in this story just like the first. When she goes with Finn to his timeline, oh she was awesome. She doesn't sugar coat things or take anything from anyone. I loved how she just laid it all out there for those people. Maybe Tom wants to make up and be friends, but she understands why Finn wants nothing to do with him. The more she learns of his past the more she understands, the more she dislikes these people. She is the same way. She wouldn't want anything to do with them either. There are still Wonderland themes in this story as well. The society captured Todd's accomplice at the end of the last story so they are trying to find out who is ordering the timelines to be deleted. Who is behind all of this? While also trying to find Sweeney Todd to hopefully get more answers. It was so much fun to read! Oh I love you Alice. Just as much as I love Finn. And I love the two of them together. I still love how Jace is dealt with. It is so refreshing to see people actually be adults and actually care about the people they care about, doing what they need to, wanting what is best for them. As more and more of the story is revealed, who is involved with the villains, it is just so much fun to read. Some of the people involved are a bit surprising, but then Alice or one of the other main characters will think about them in a way that I never did and it is just like yes, that makes sense. Why did I never think of those stories that way? It is all set up that they are good people in their stories, but maybe not. Again with the story is what the author chooses to tell maybe not what it is actually like. Love it. It does end on a bit of a cliffhanger. What will happen? Will they be able to figure out what is going on and why? And will they be able to stop the bad guys? I cannot wait to start the next book. This is definitely a new favorite series of mine. I just haven't read anything else quite like it. I love the way books are talked about and the characters are some of my all time favorites. Such a great read.
